Royal

Between Corinthian columns and stilted arches, it raises the kitchen Royal. The leitmotiv of this kitchen is Nature: in the ivory version, bright floral patterns are depicted in the coffered ceiling and by the wavy wood carvings; the walnut version, just like its tint, is secular and supreme.

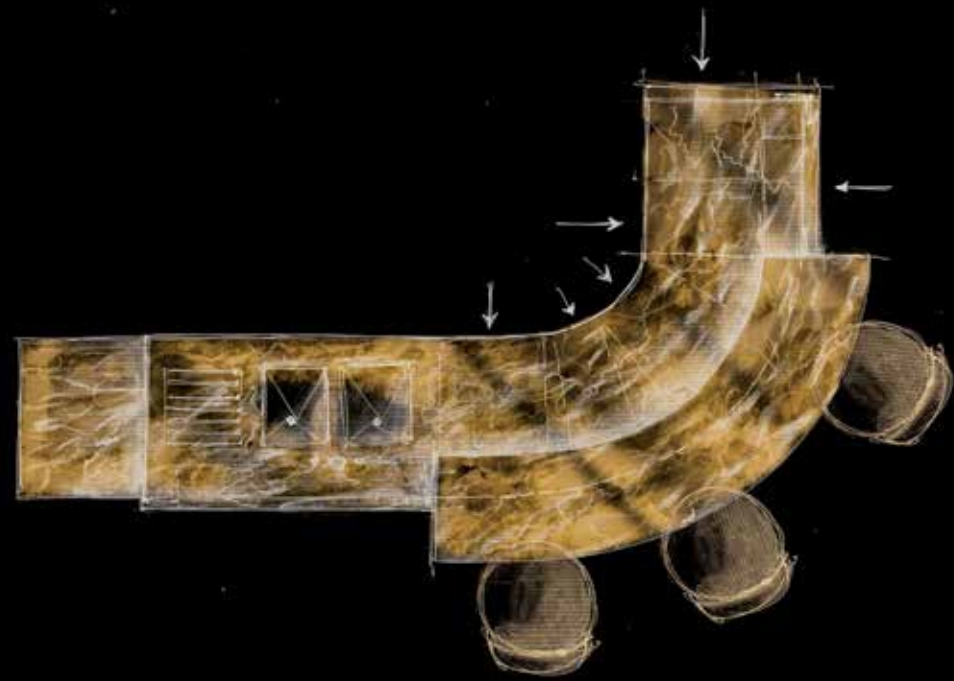

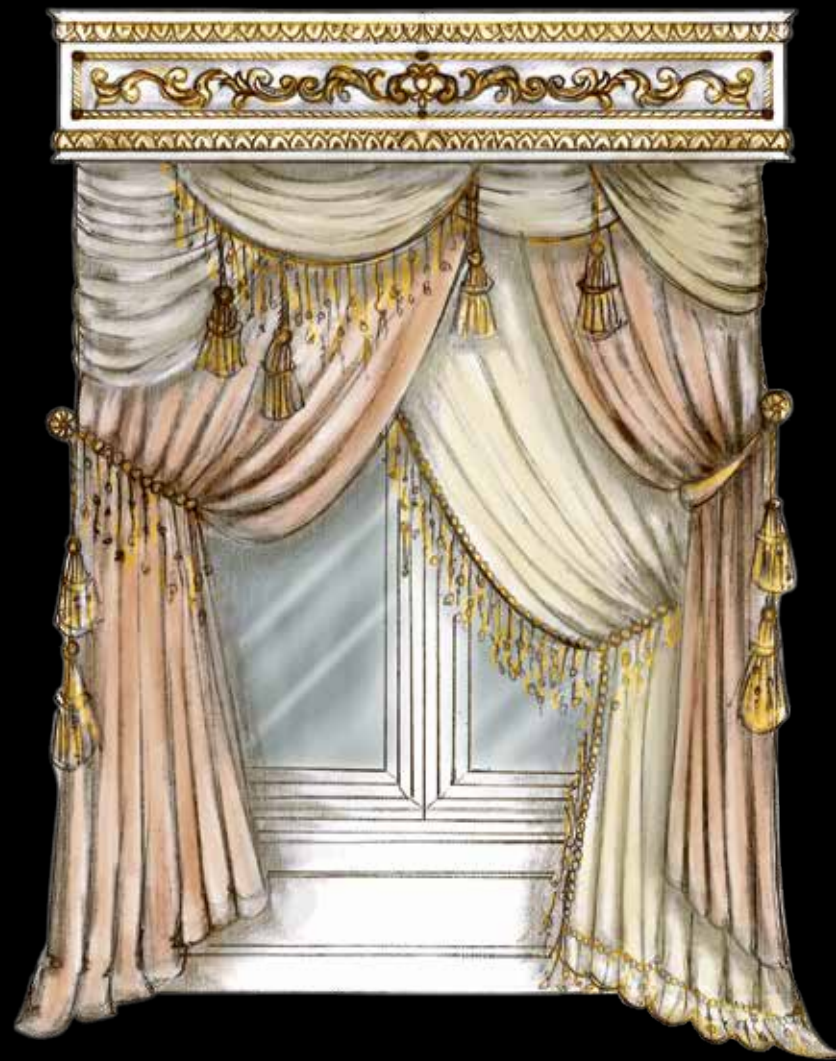

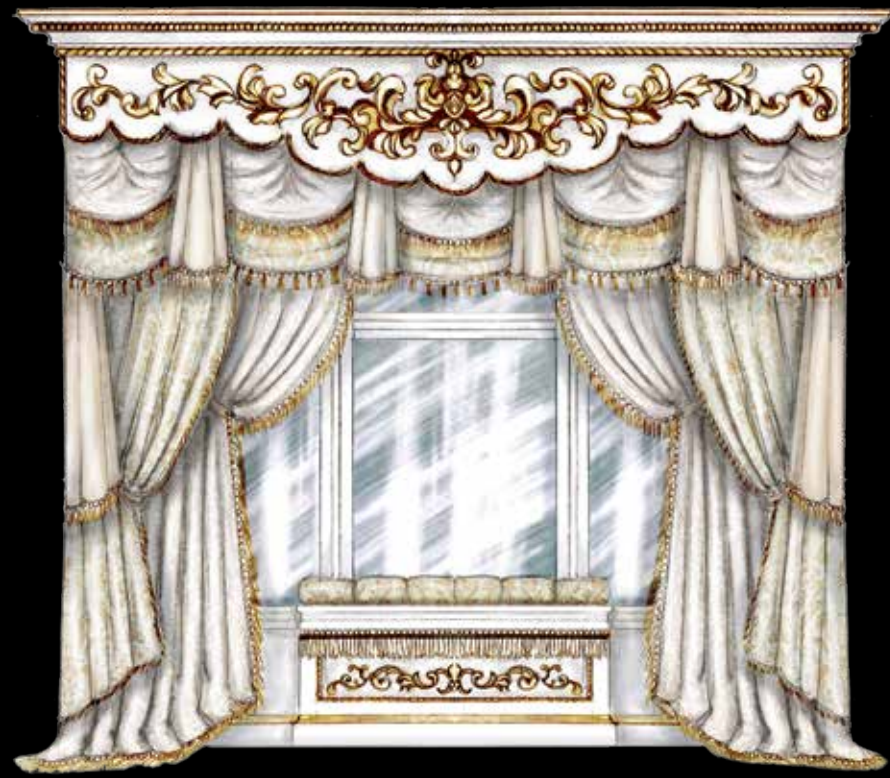

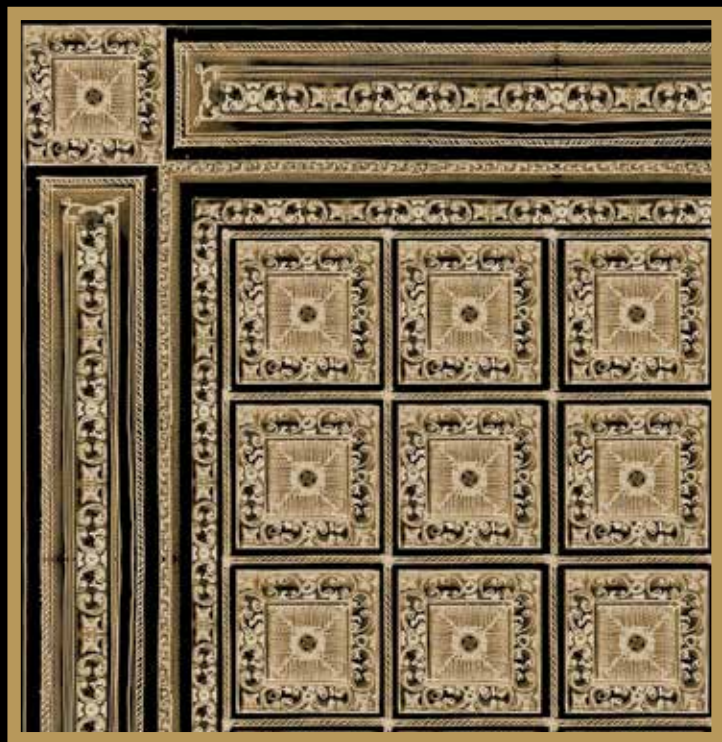

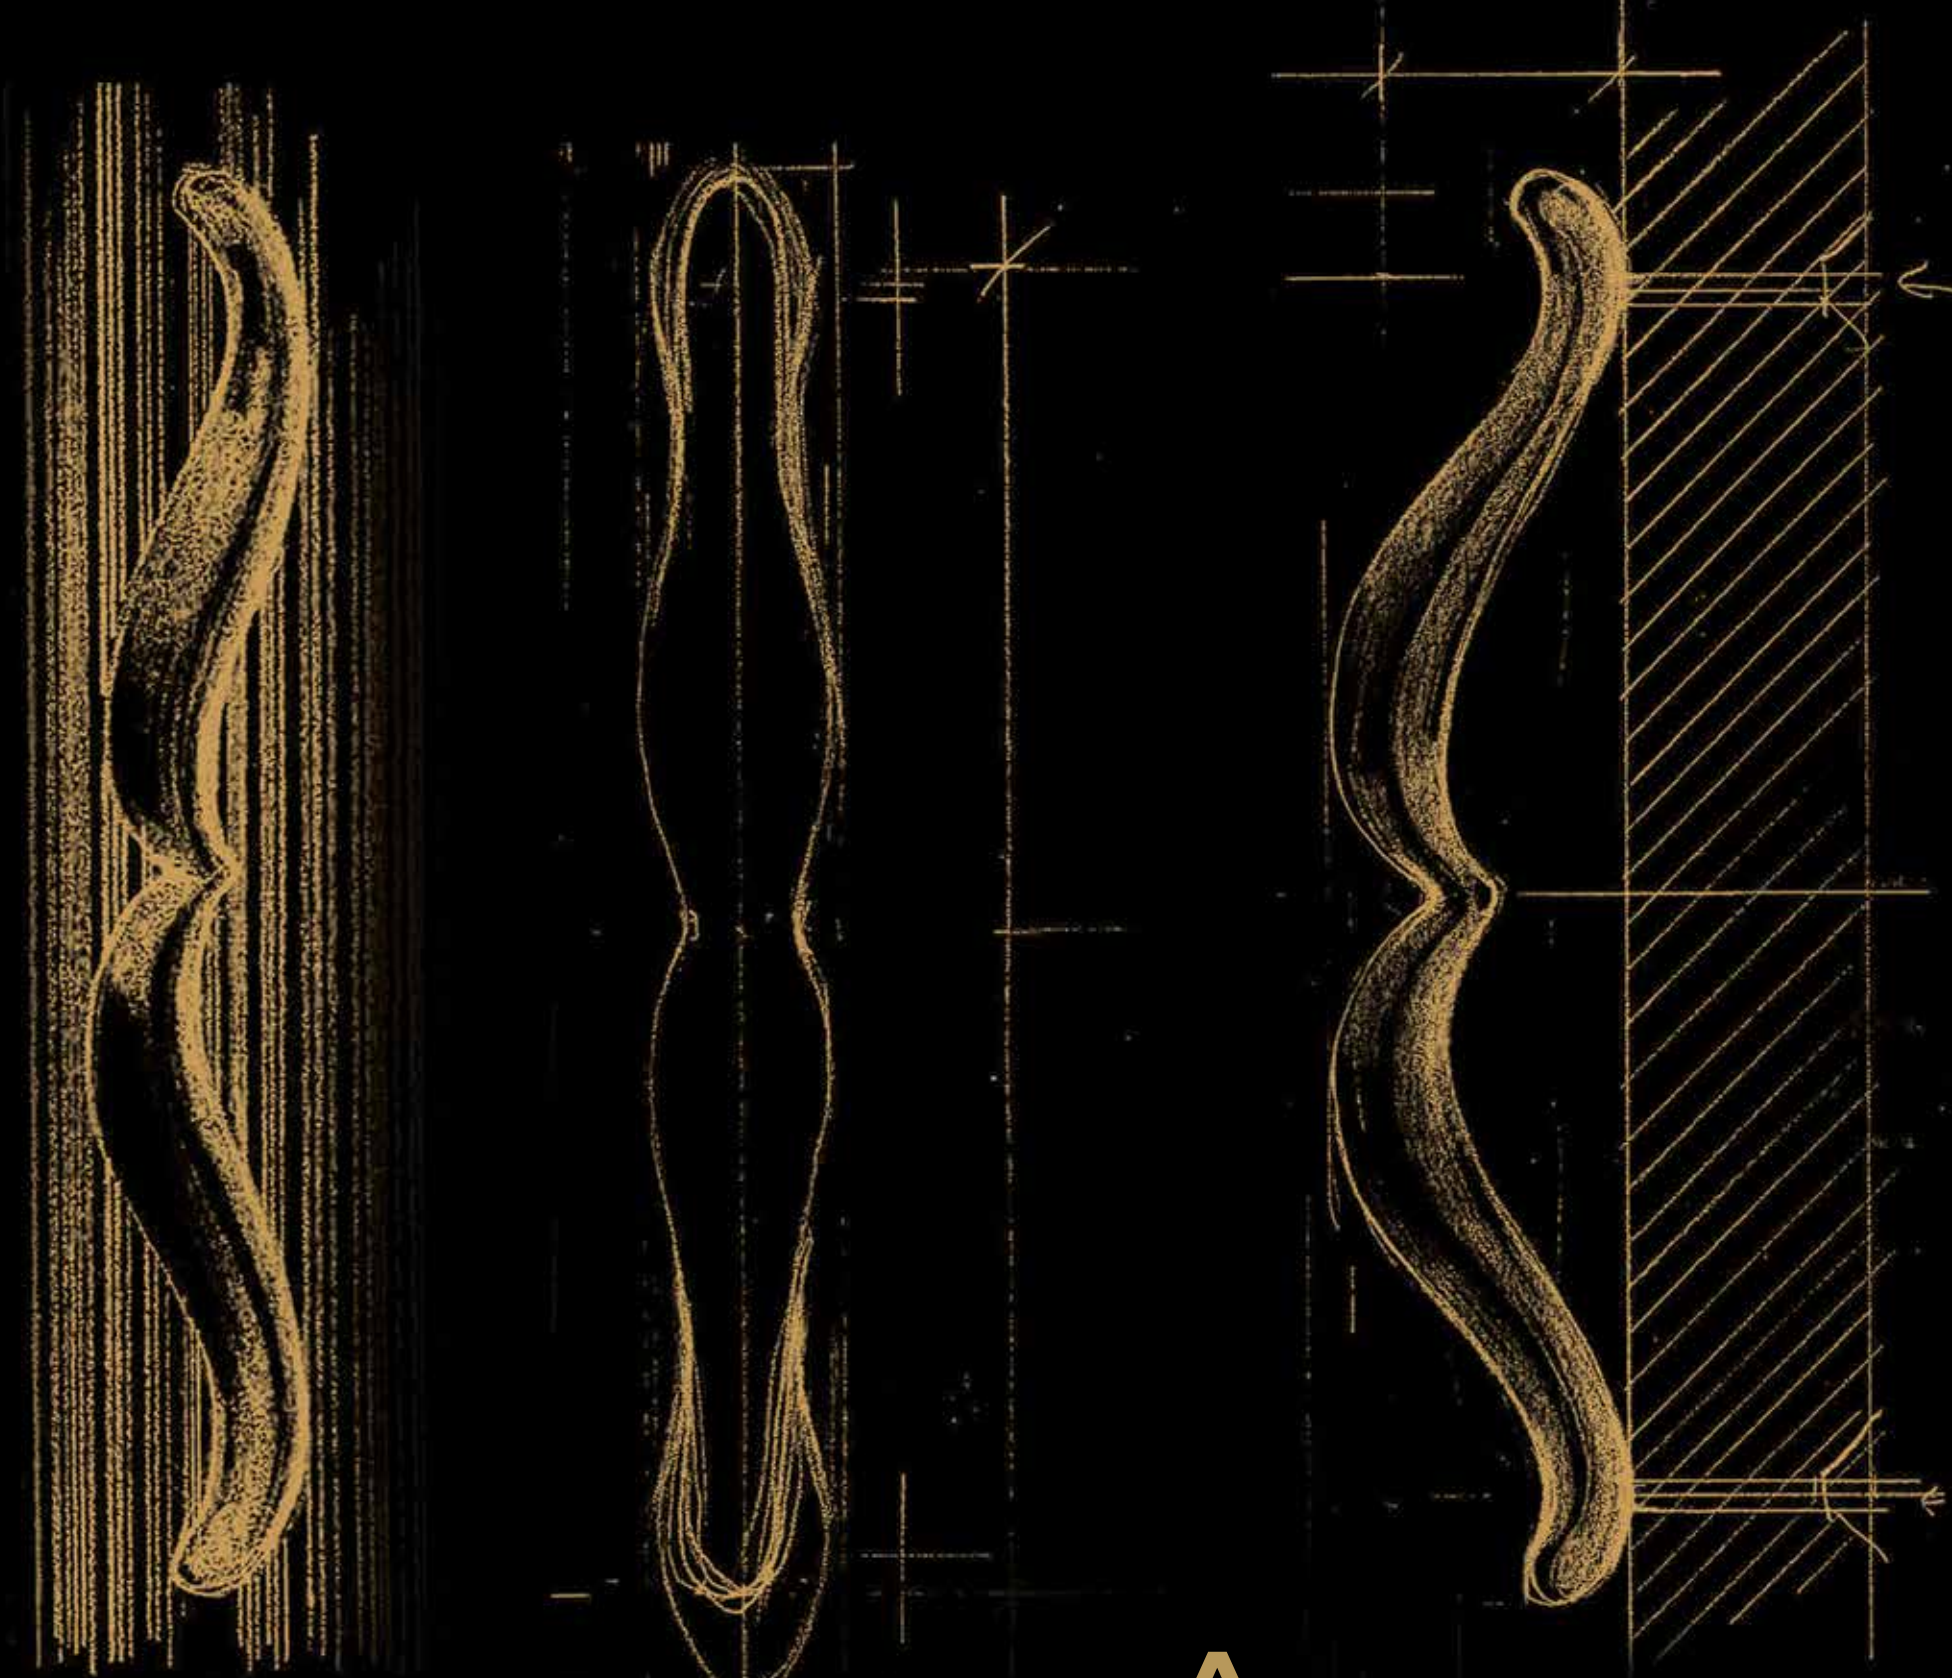

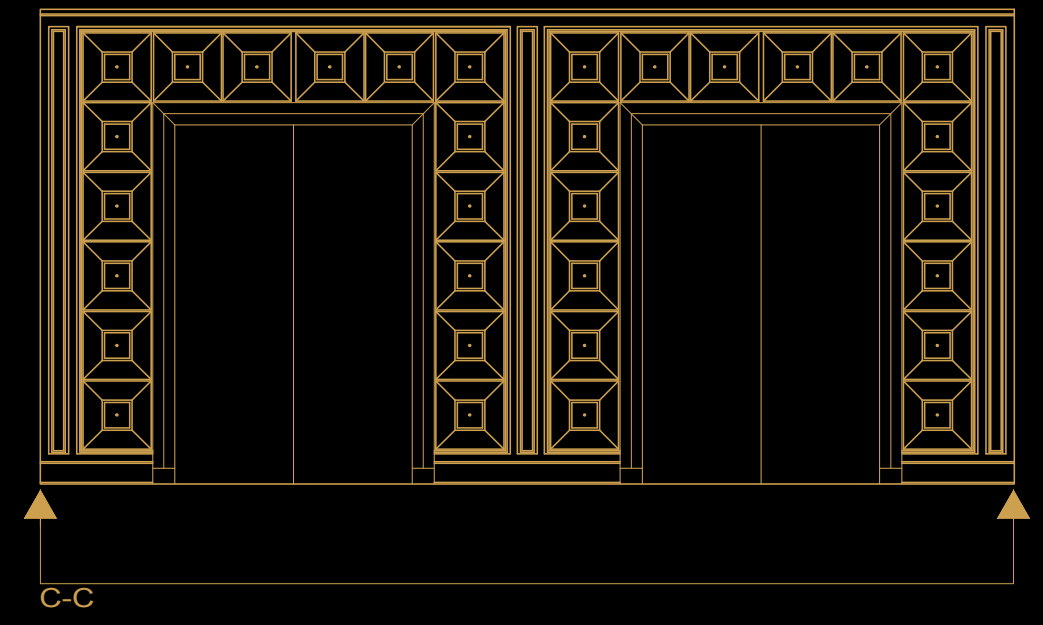

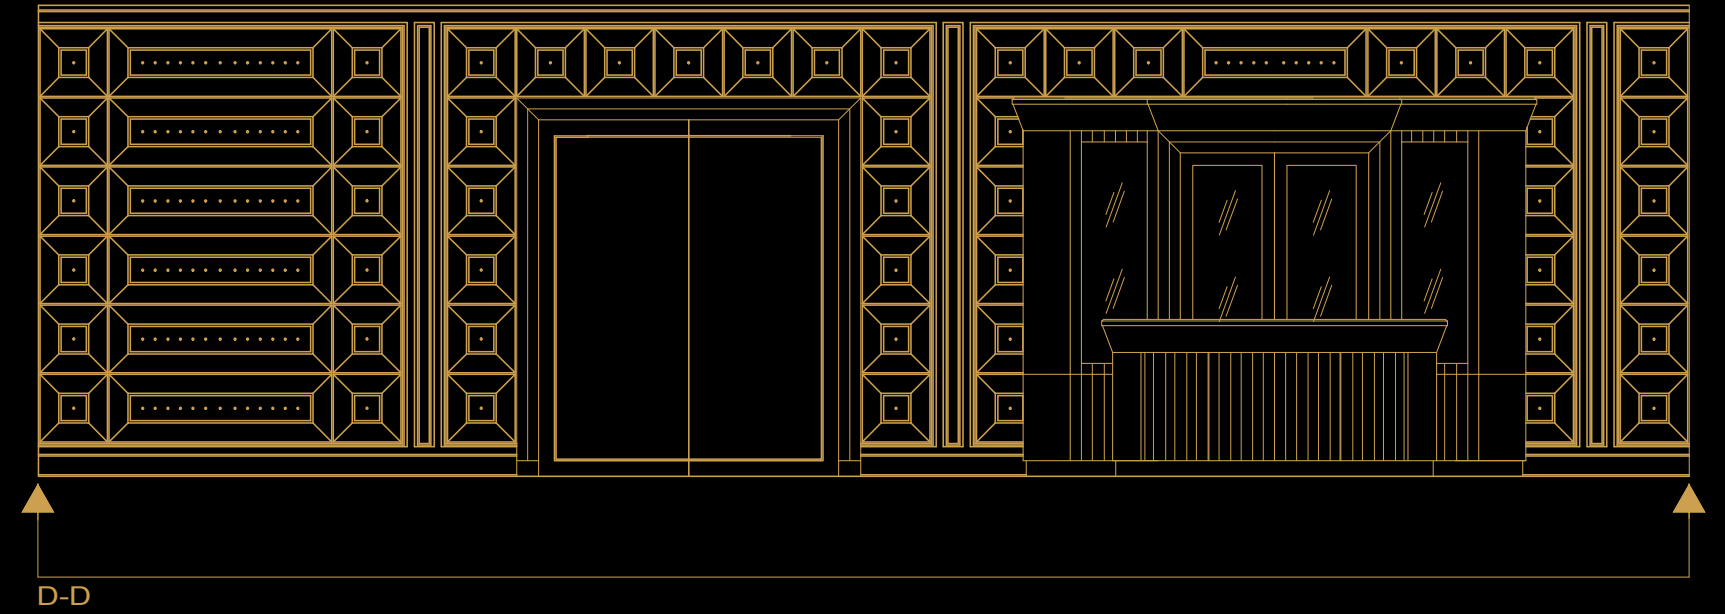

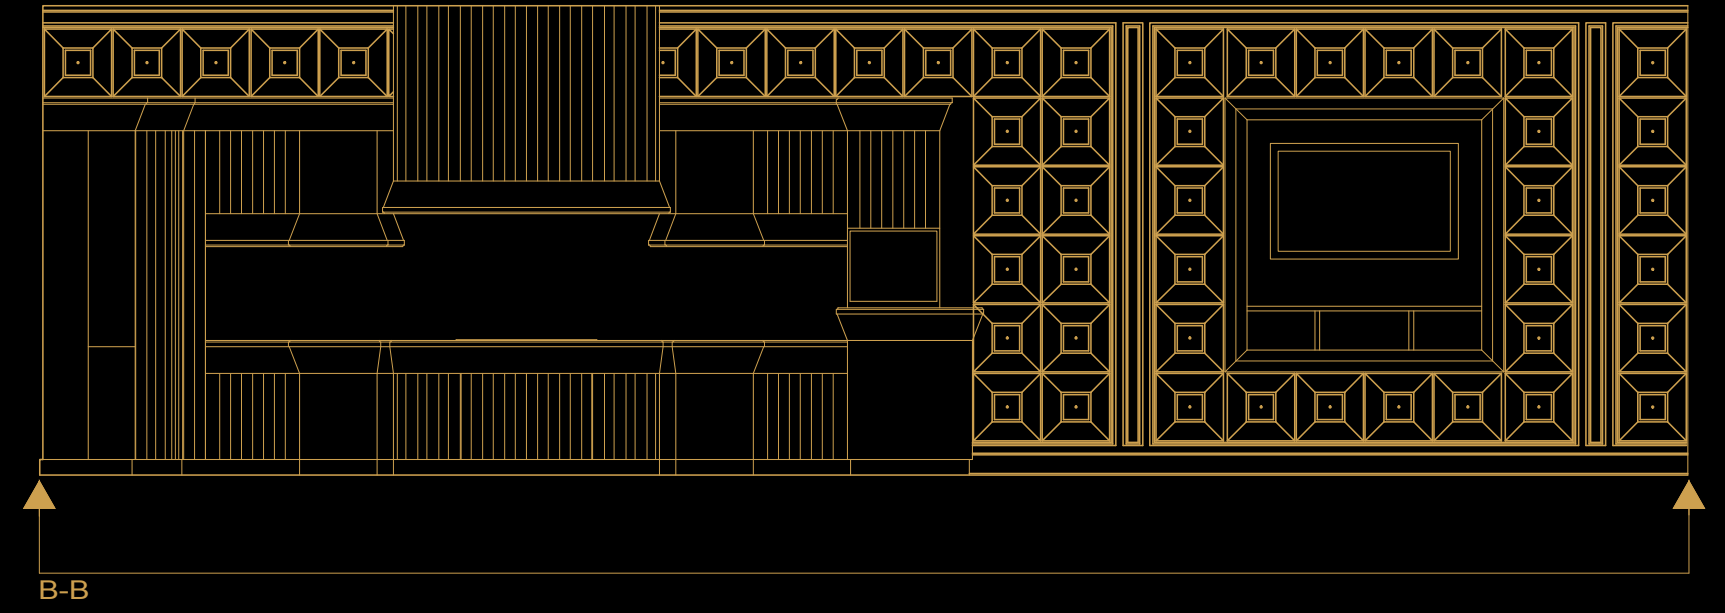

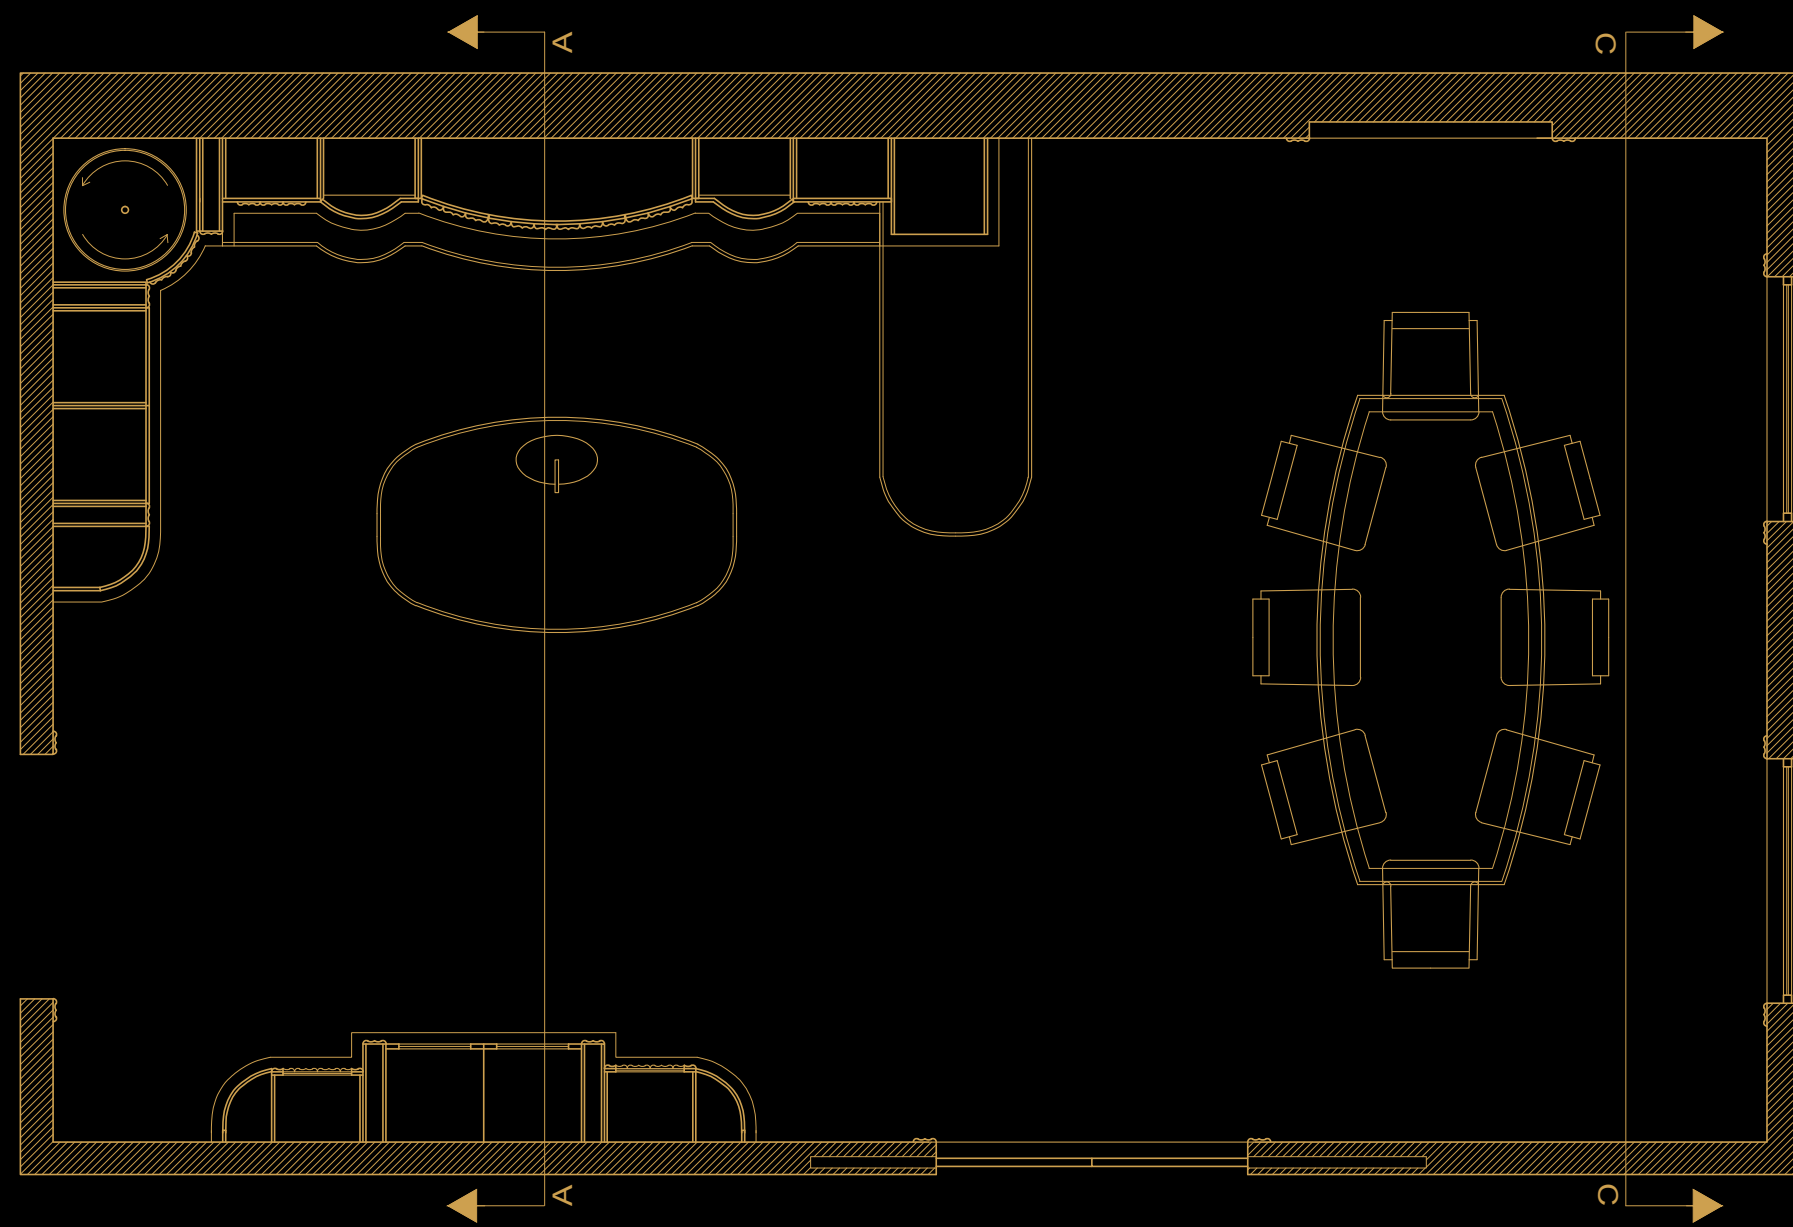

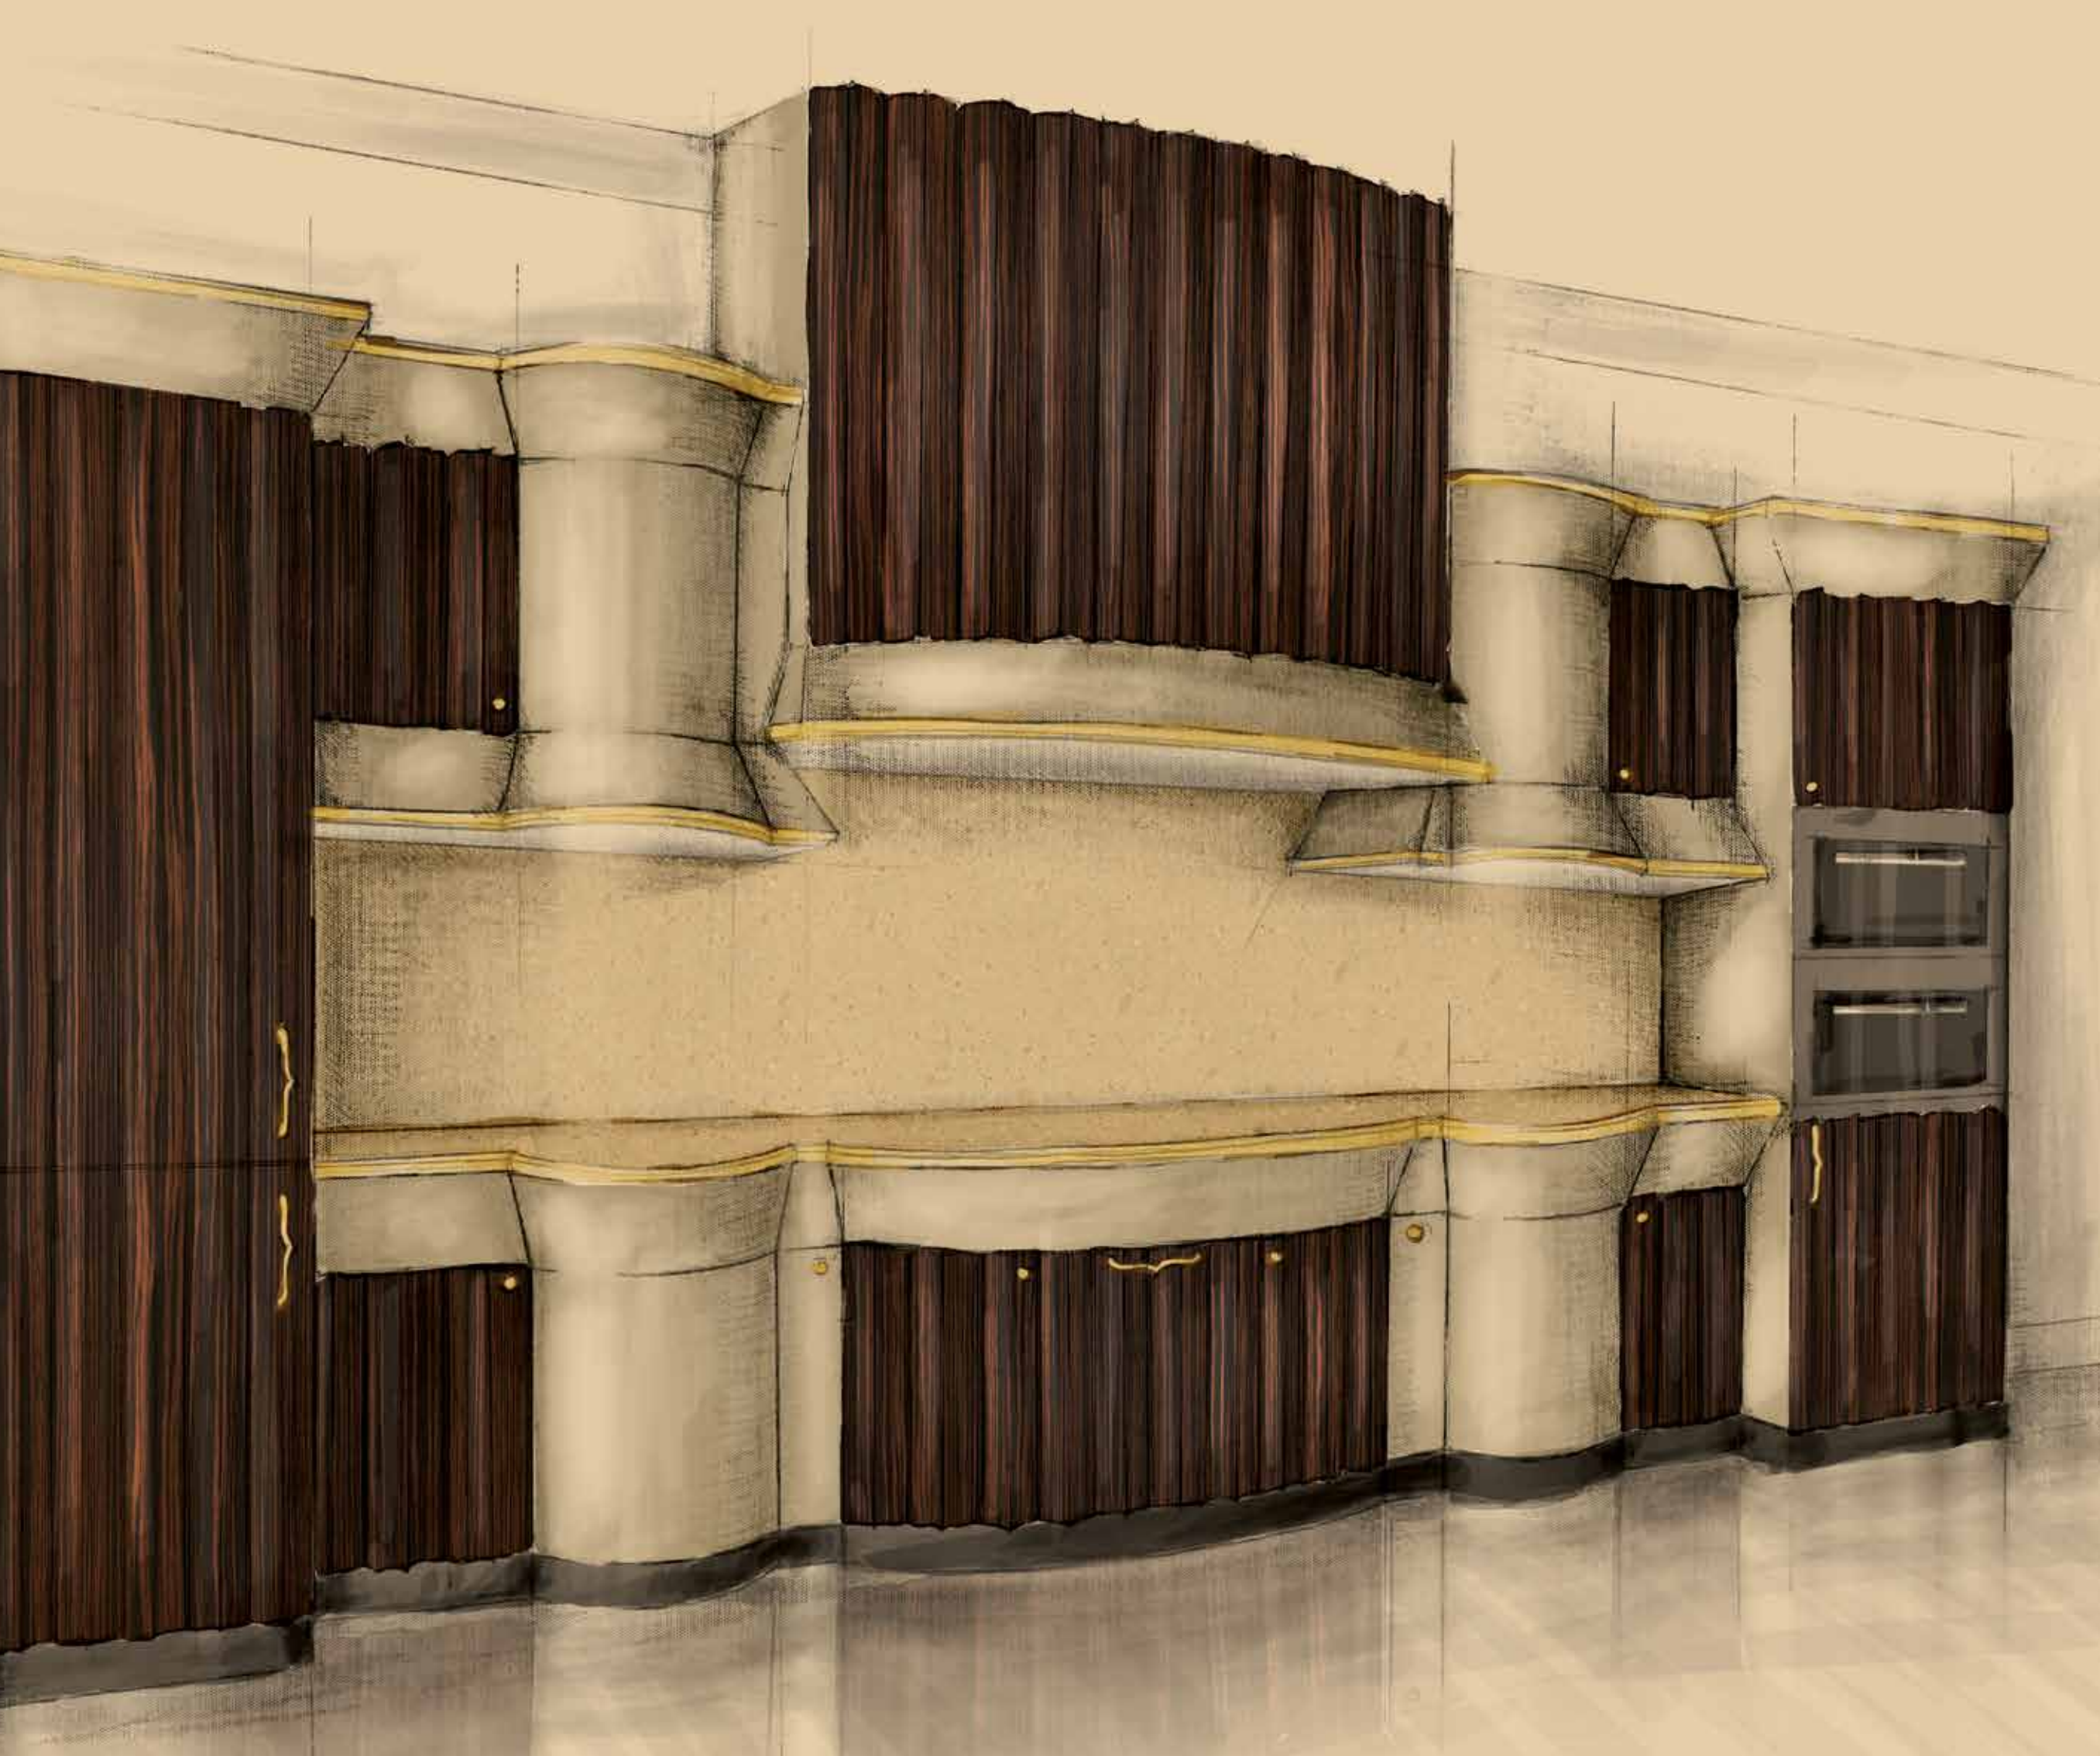

Arrogance

From the Sulawesi island to the skilled hands of Italian artisans, the Makassar ebony is selected for its hardness and subtle grain. This Art Deco masterpiece is more than an amazing experiment of interior design, it is a luxury creation of Italian taste forged by Indonesian tropical sun and heavy rains.

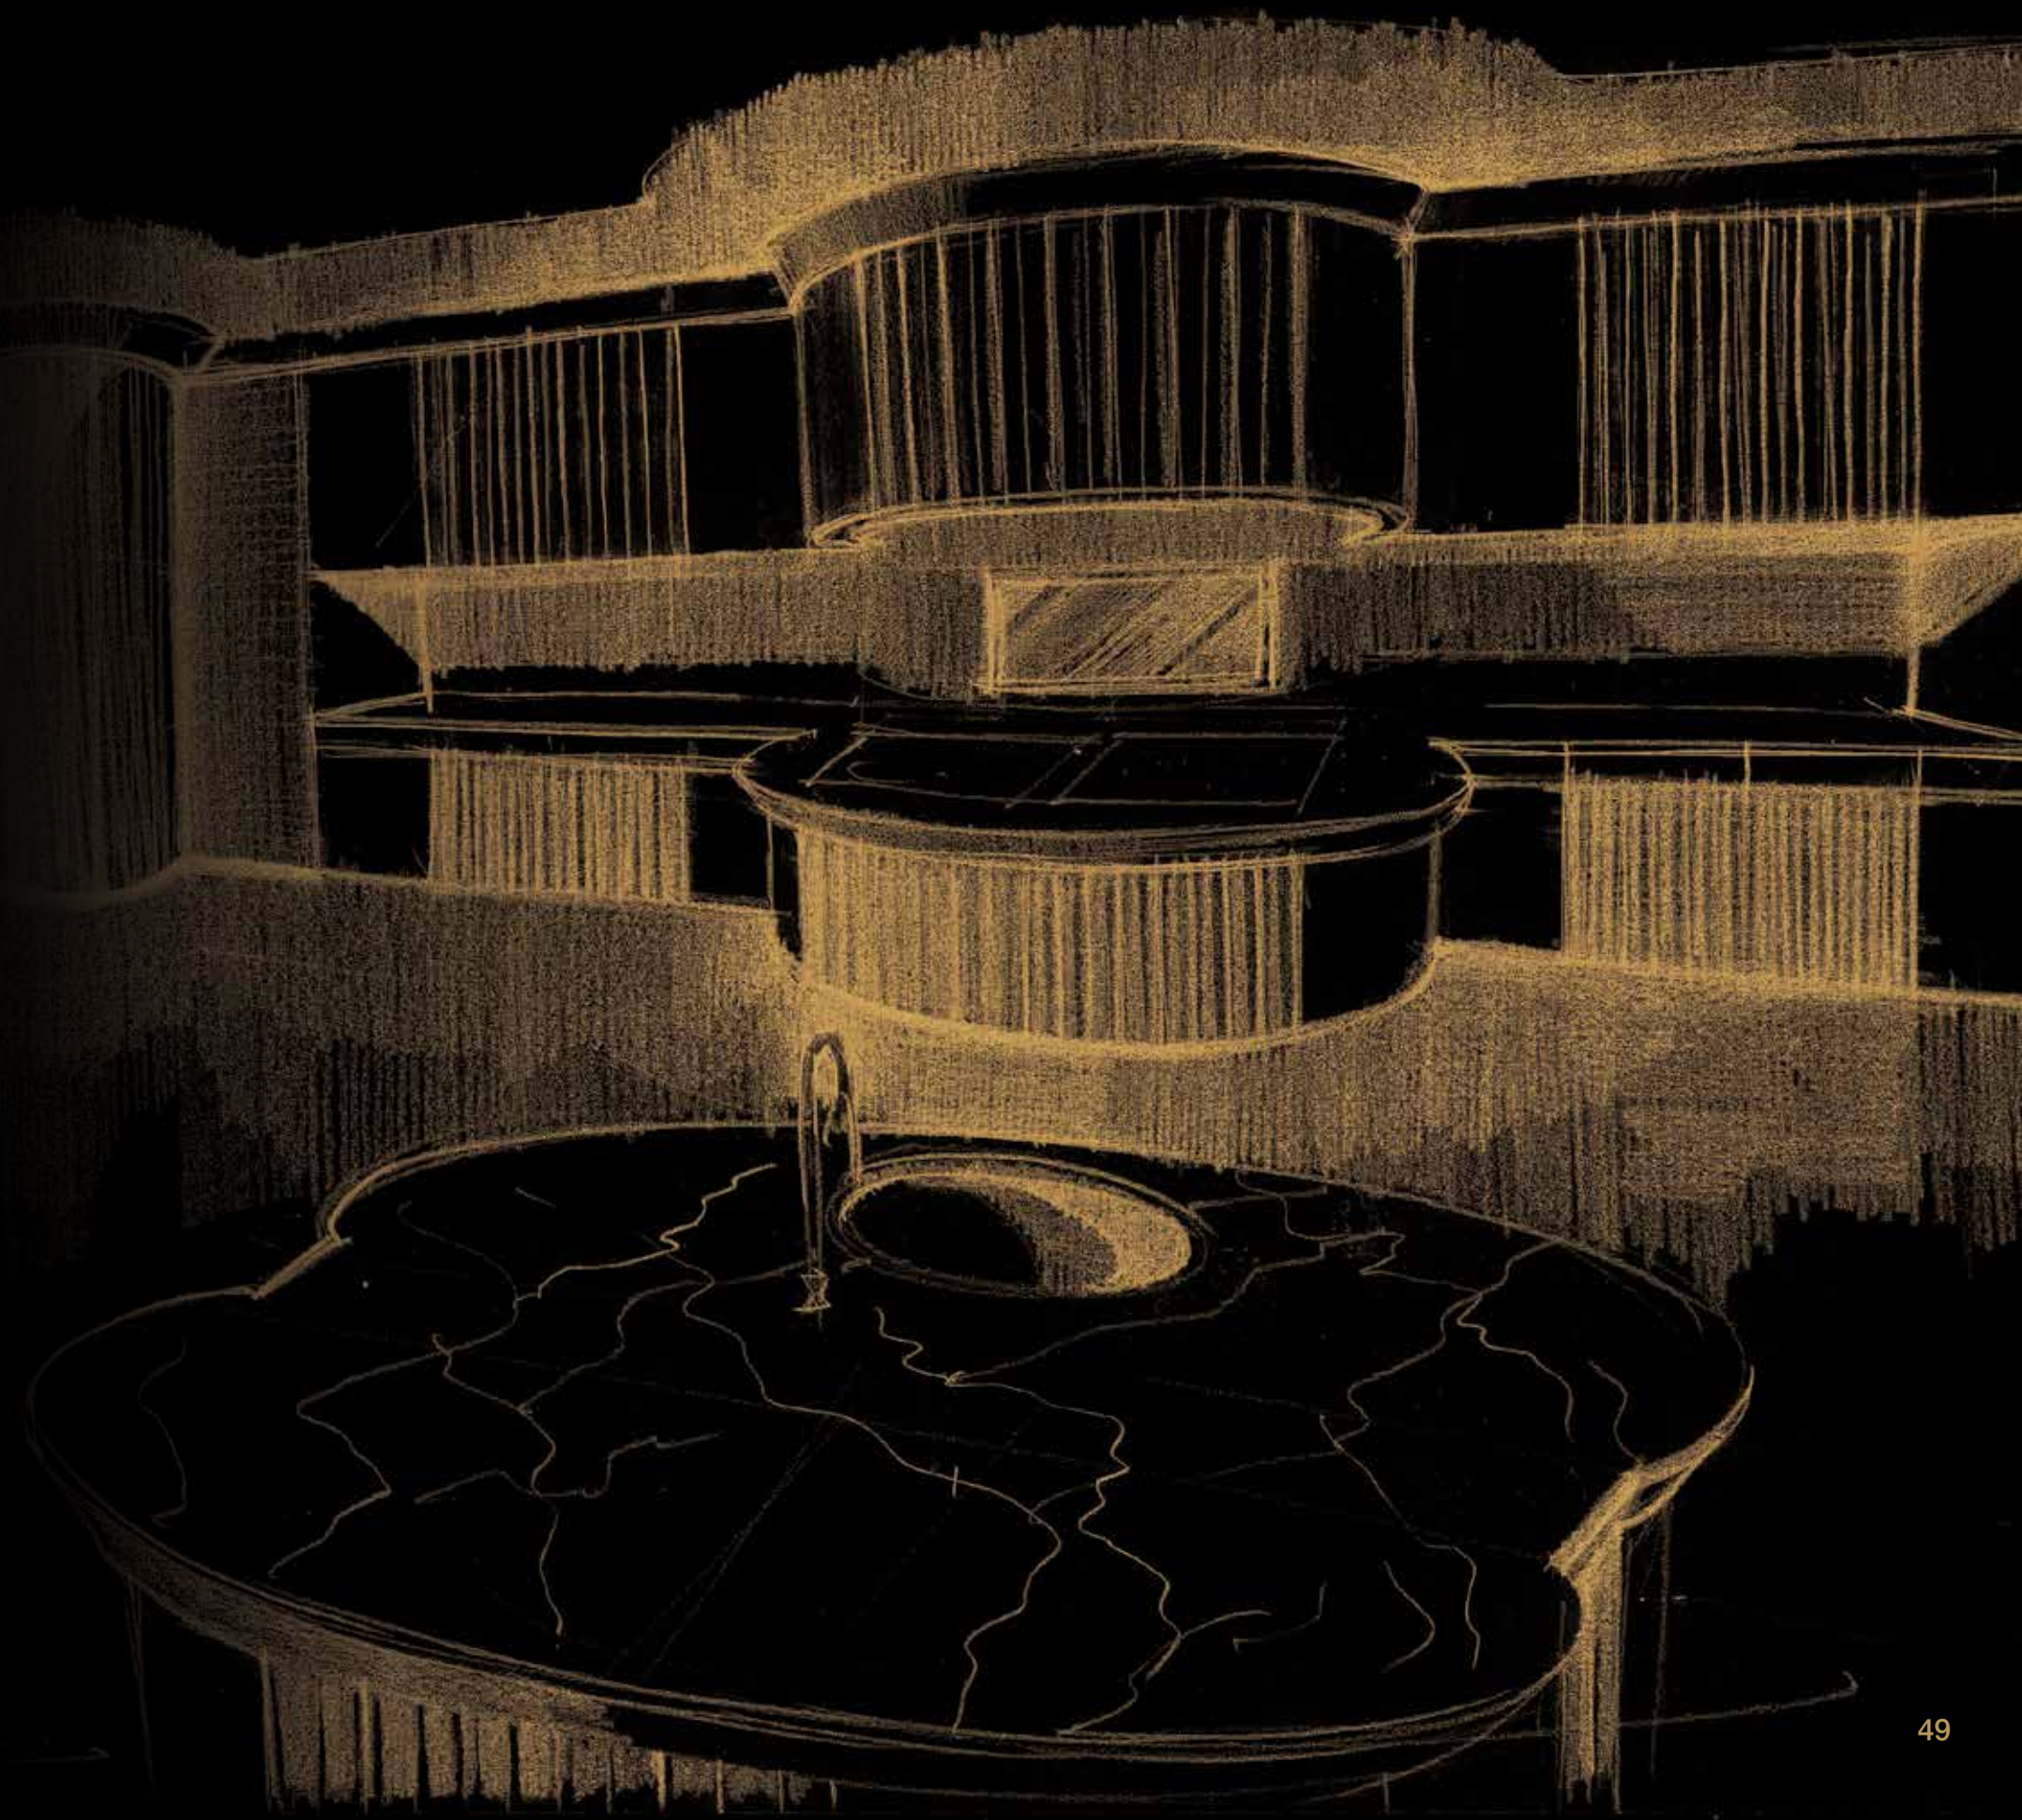

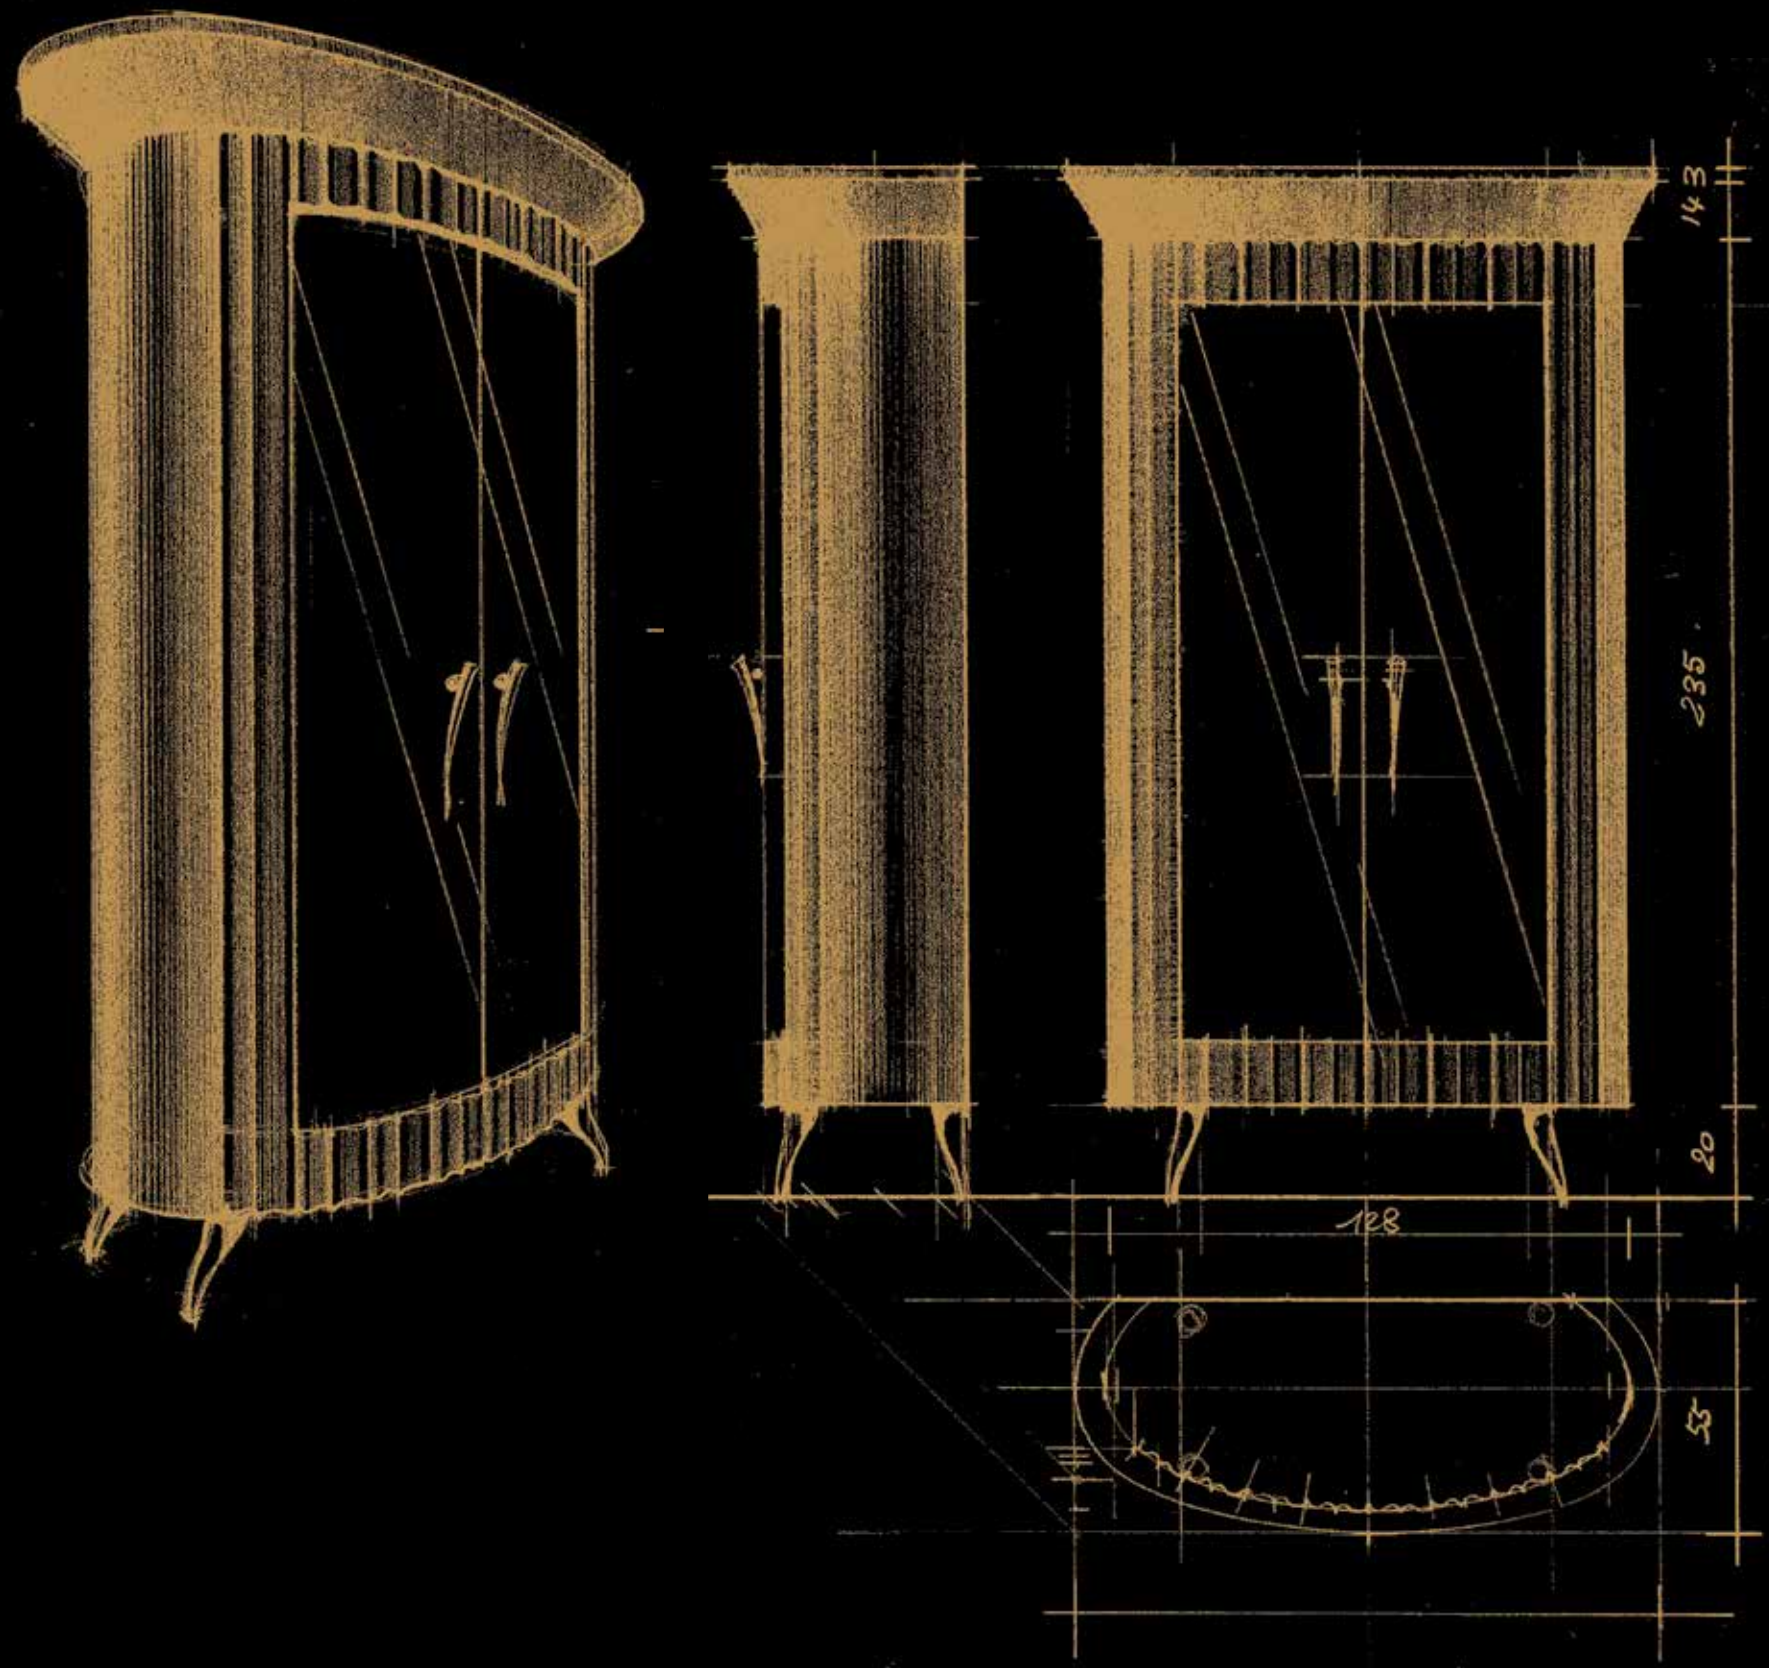

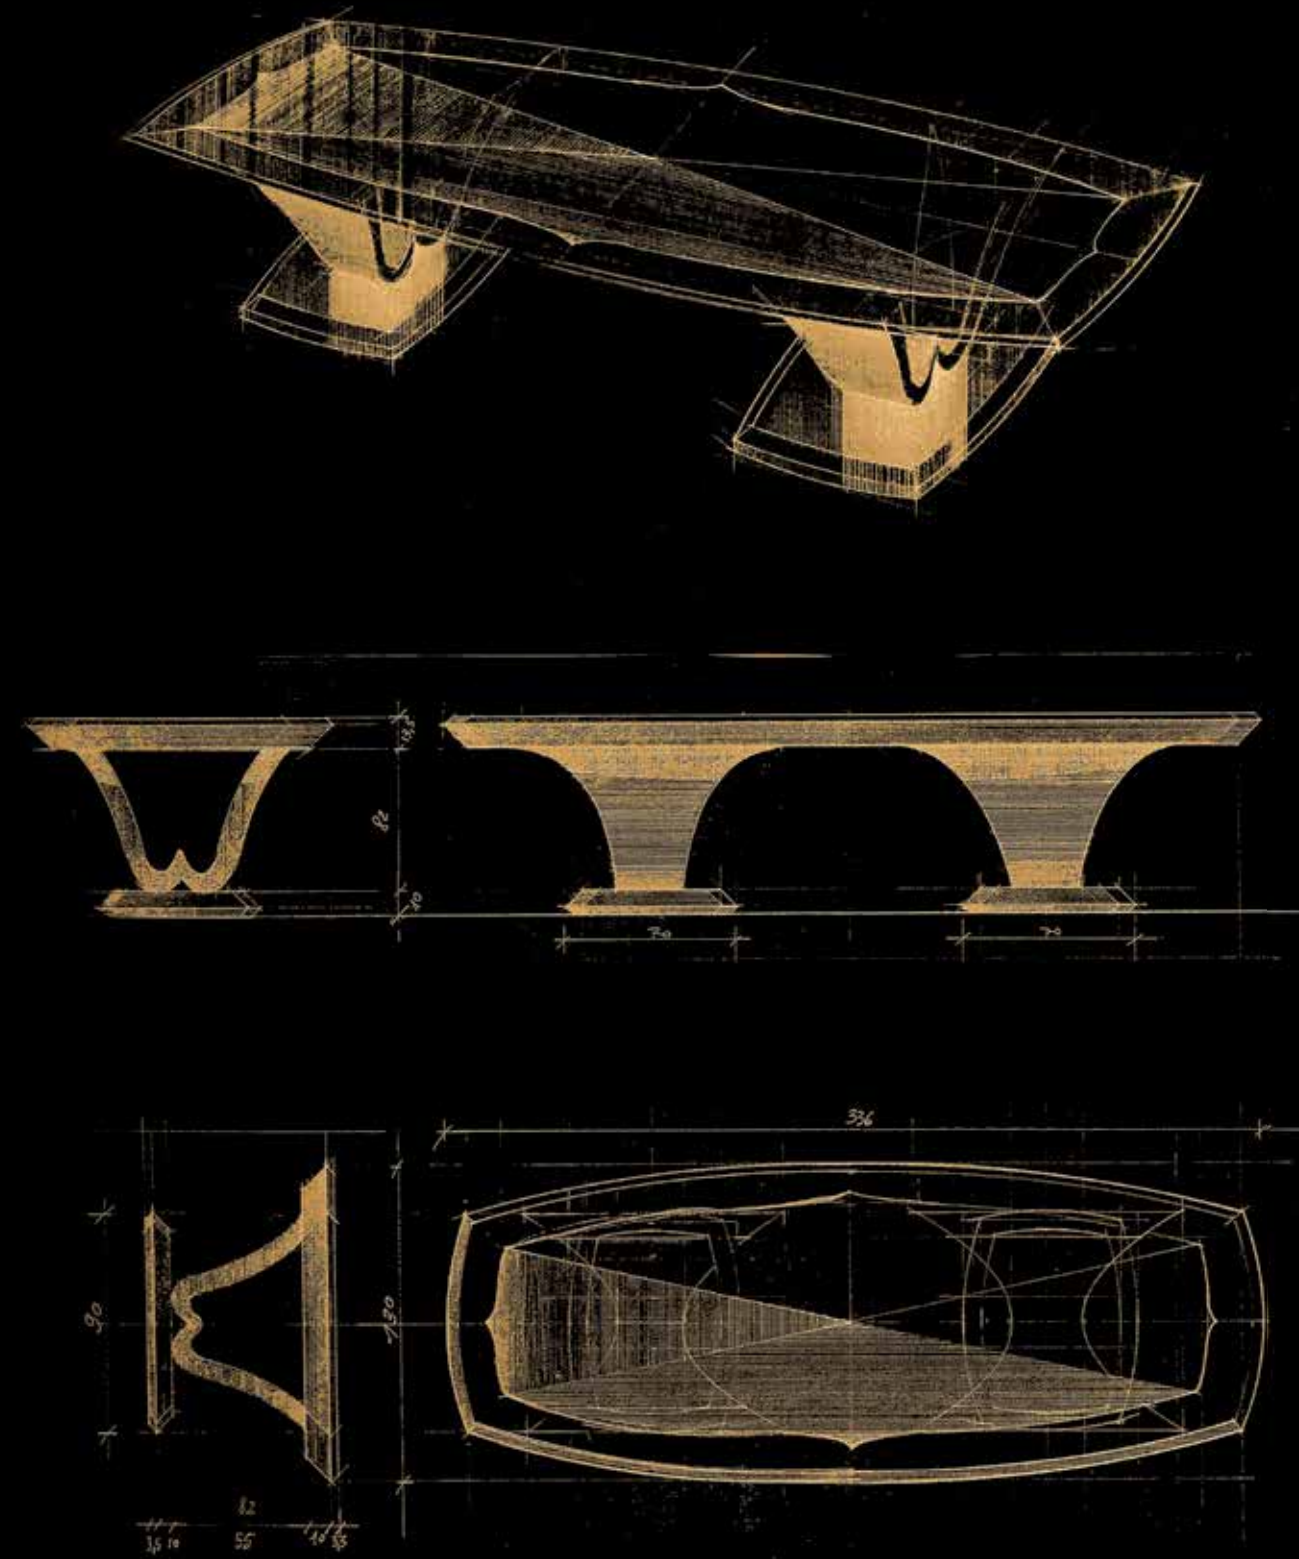

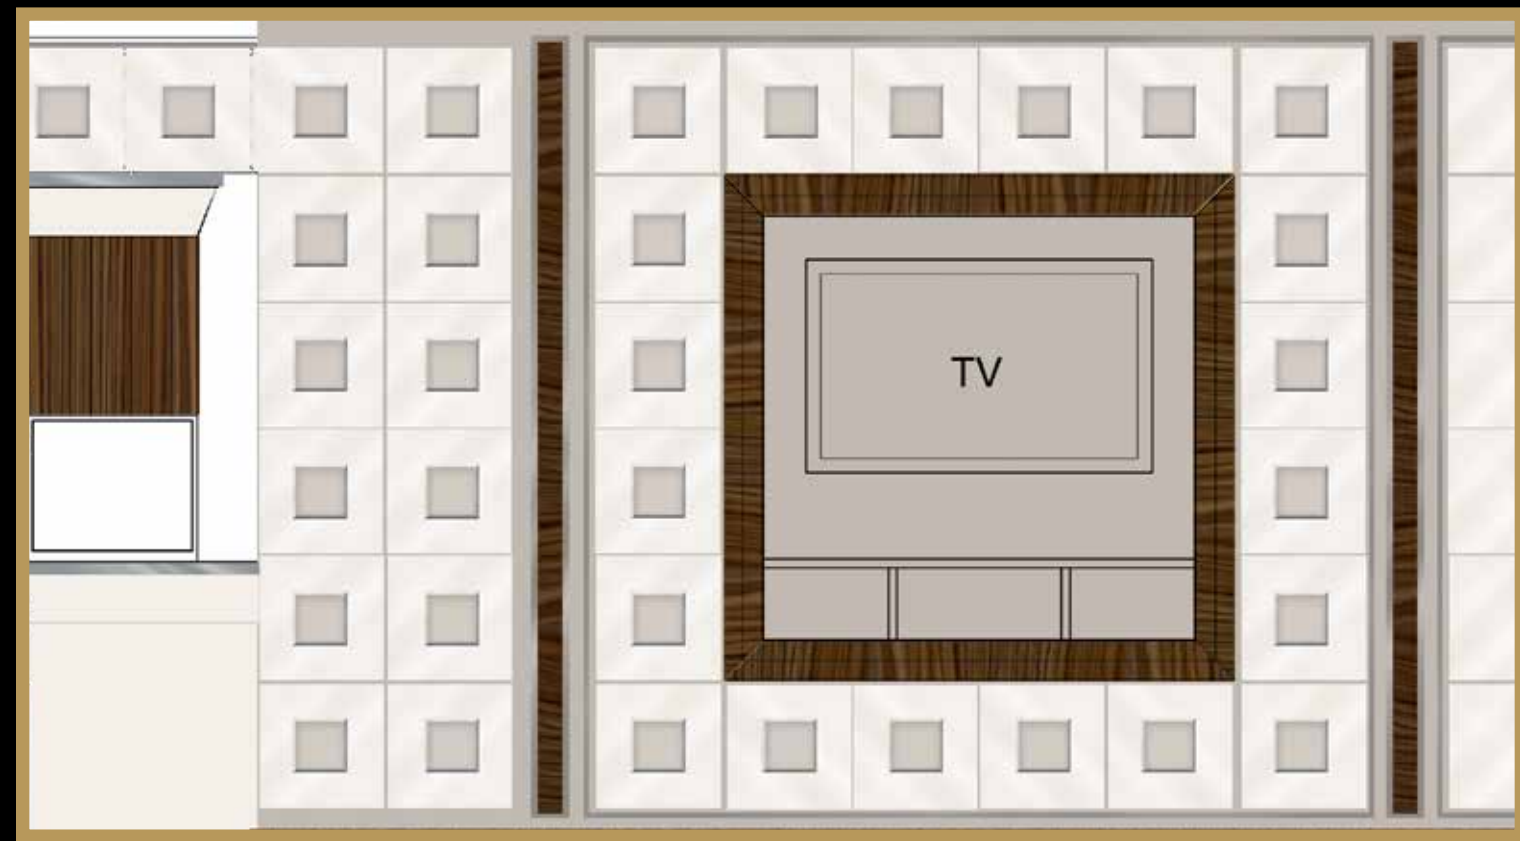

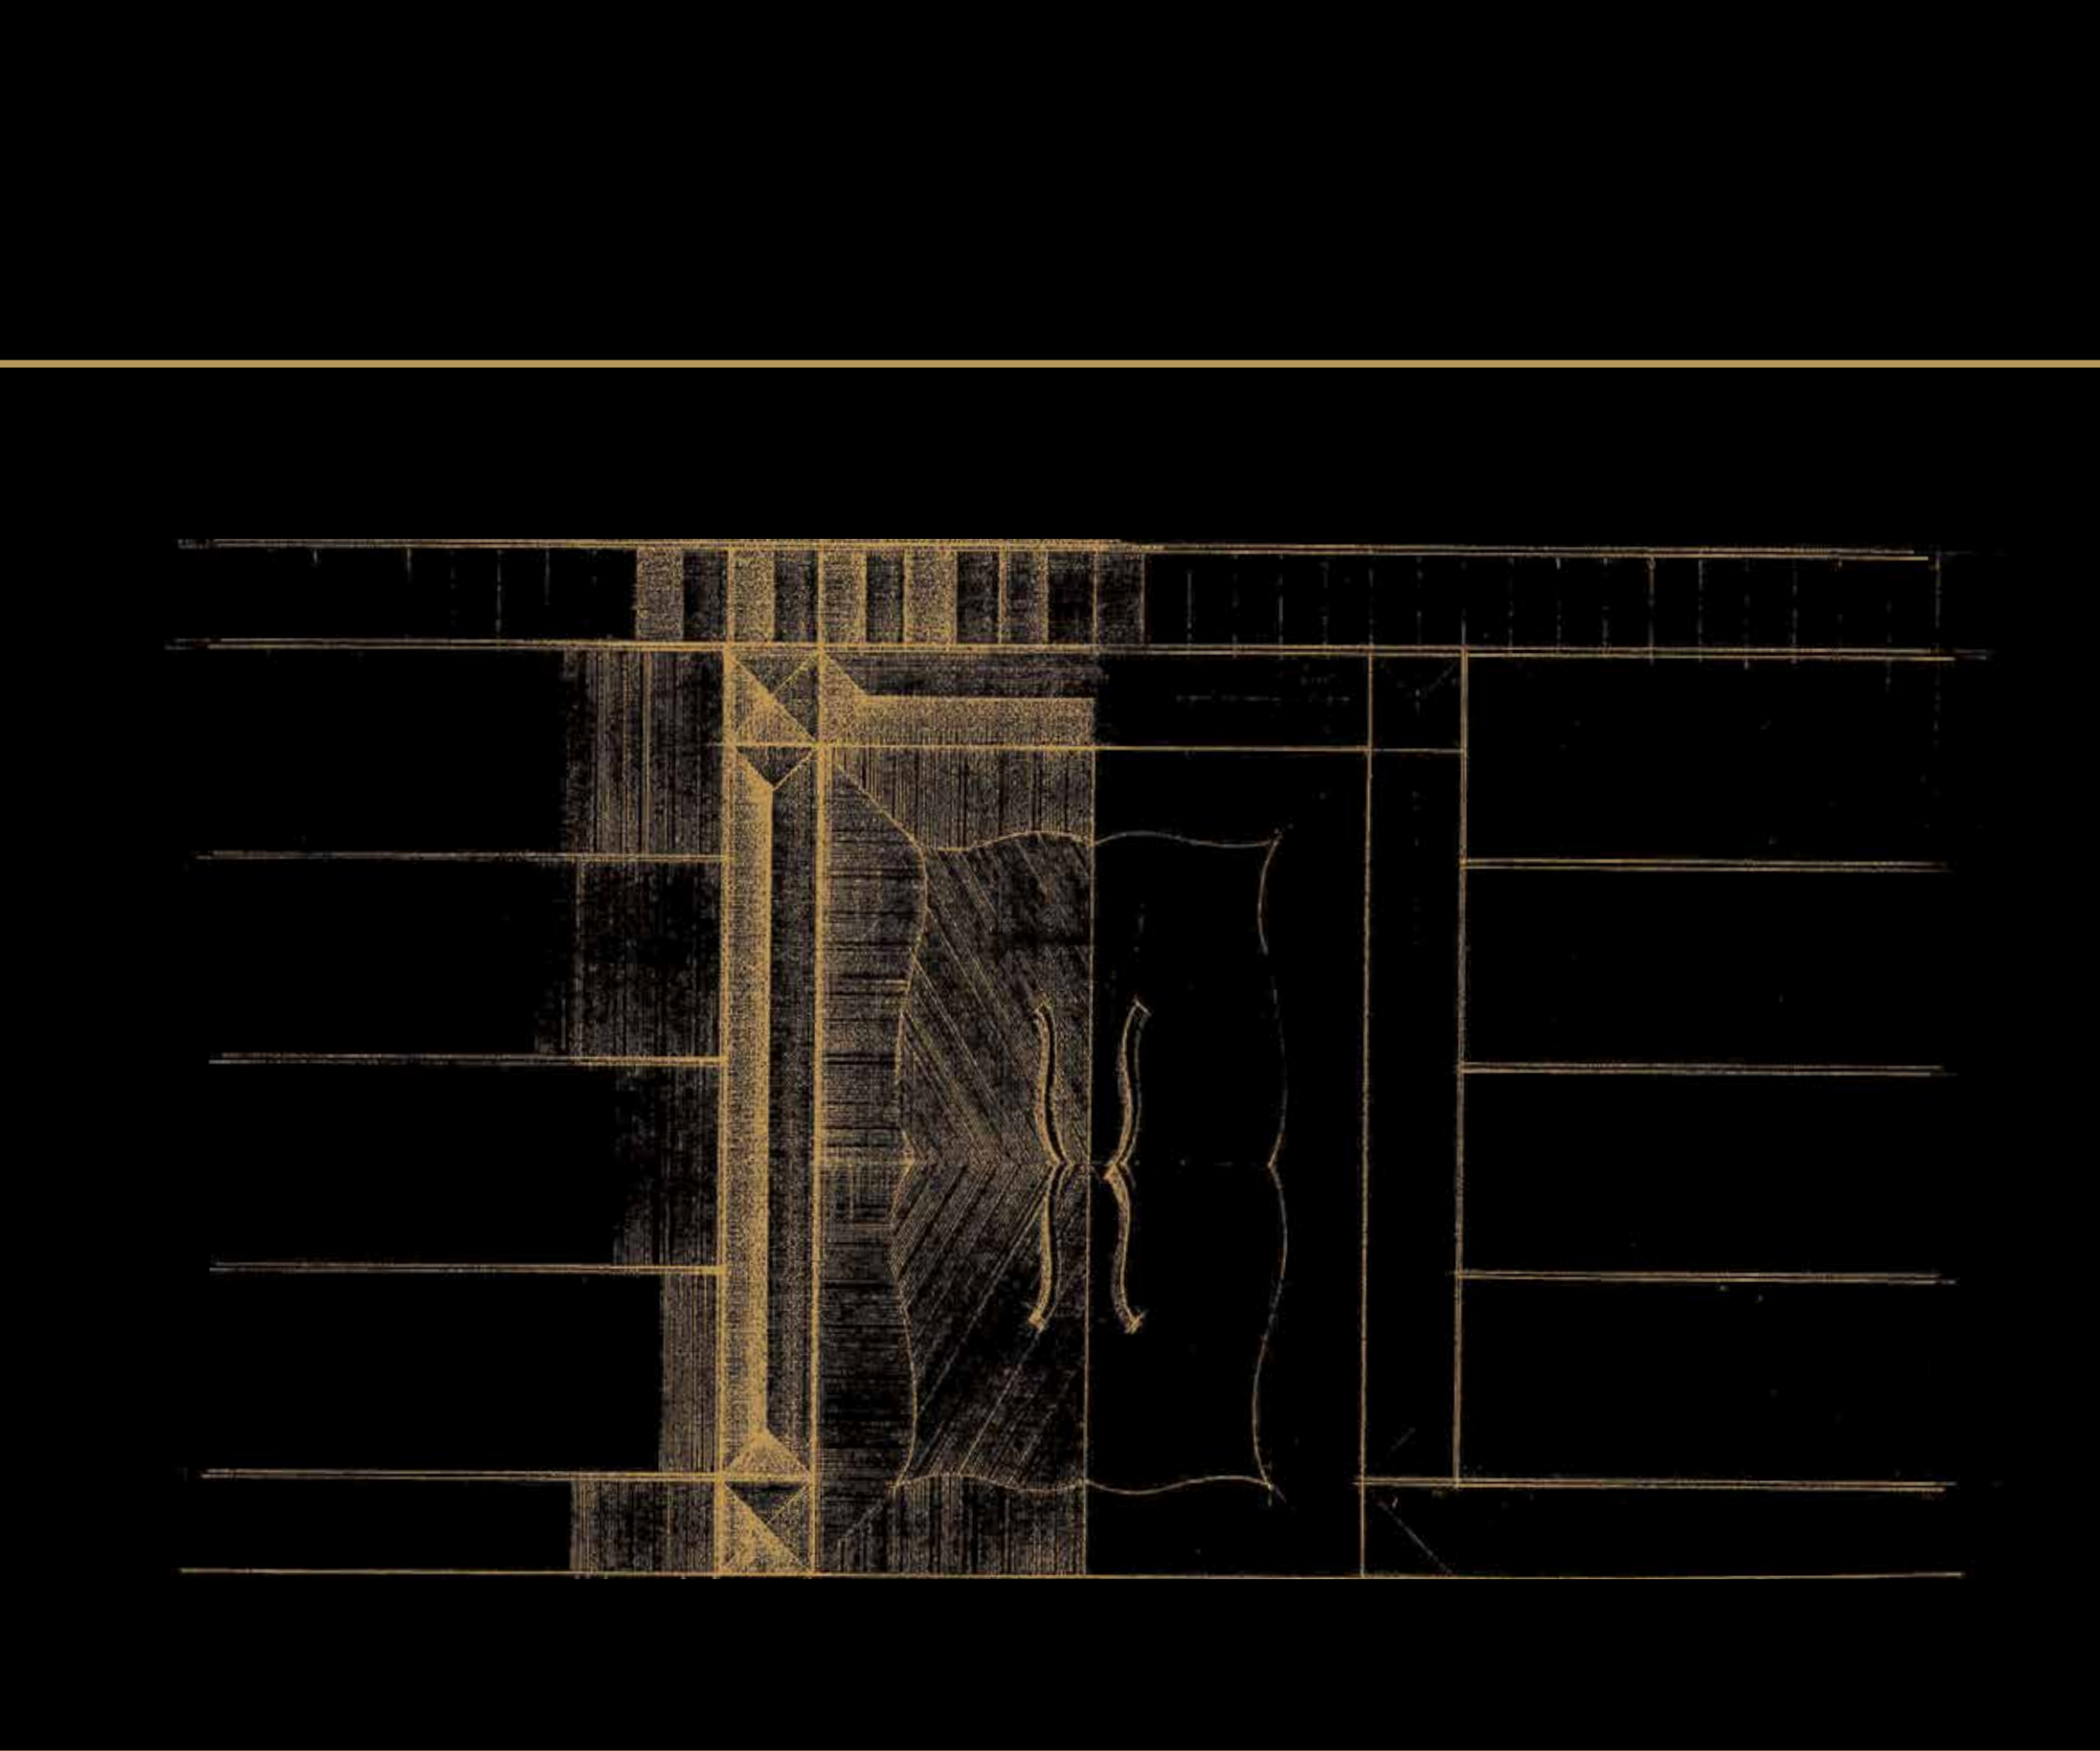

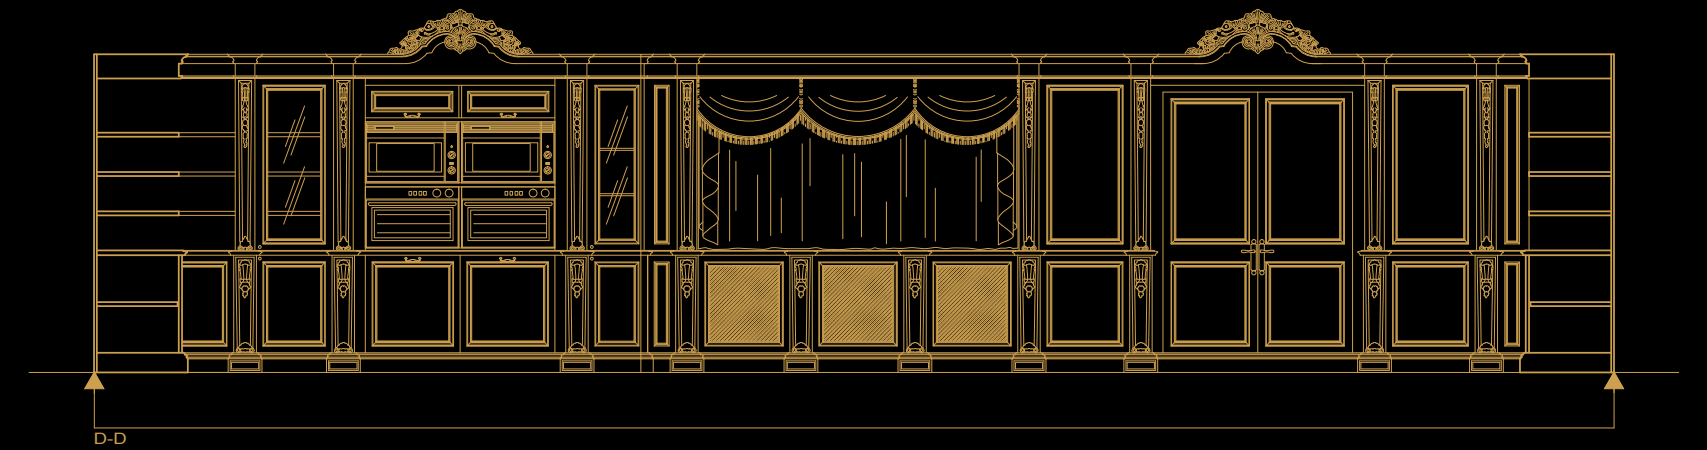

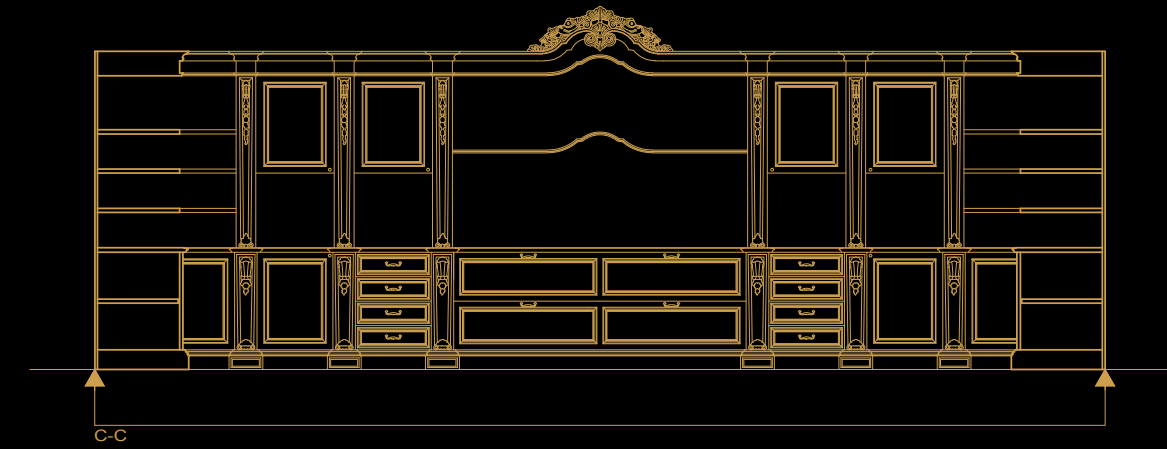

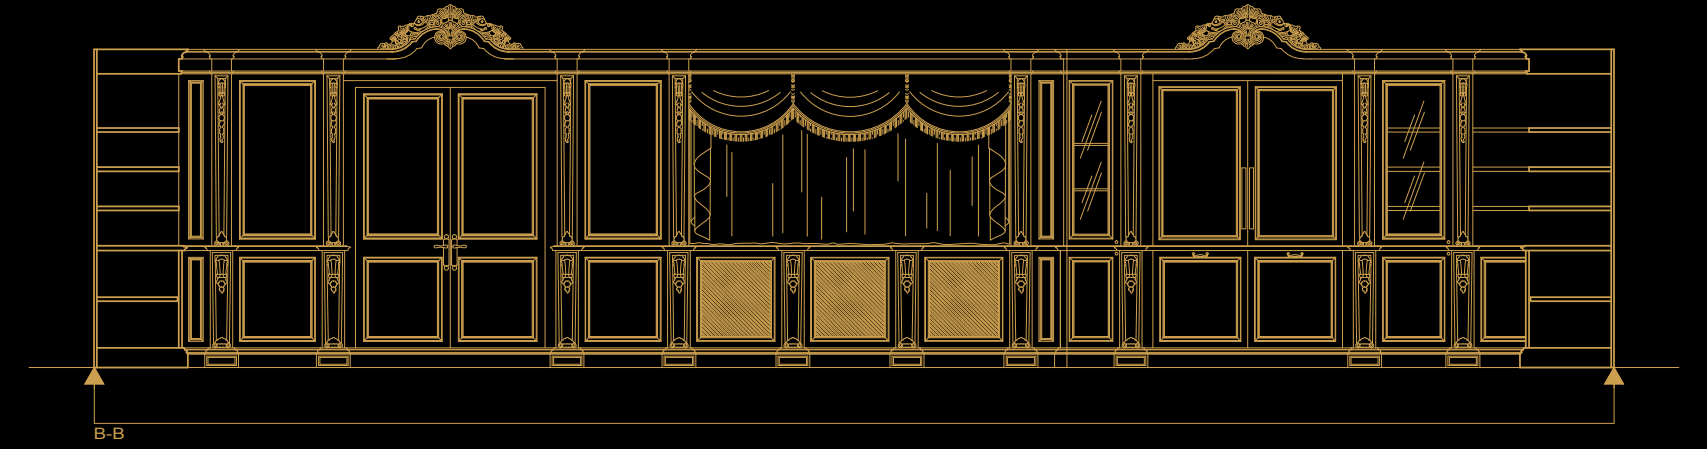

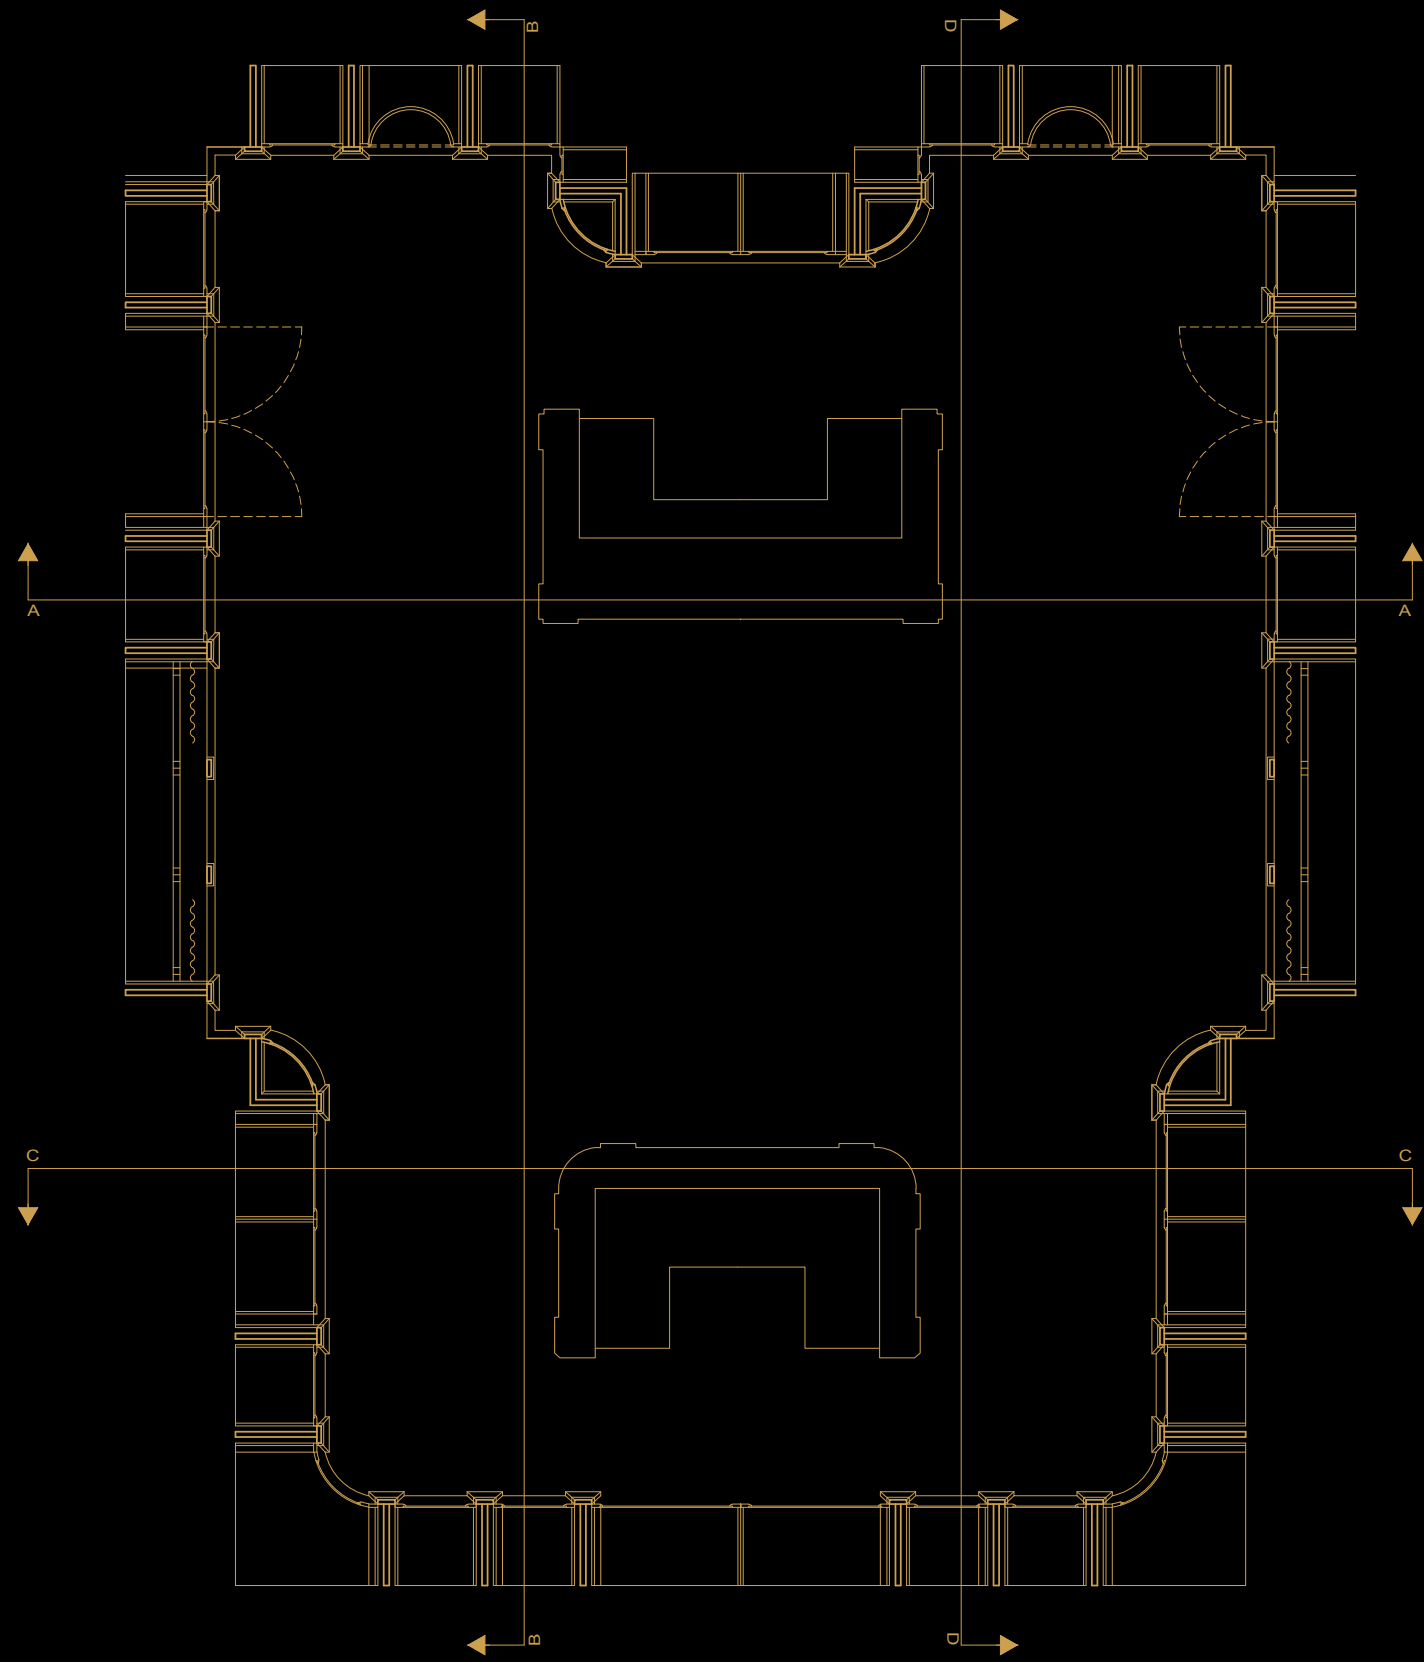

Deluxe

An insight into the structure of the Tuscan wood which reveals the amazing effect of the timber veining. Soft ivory and noble walnut with briar root panels are only two of the possible elegant solutions.

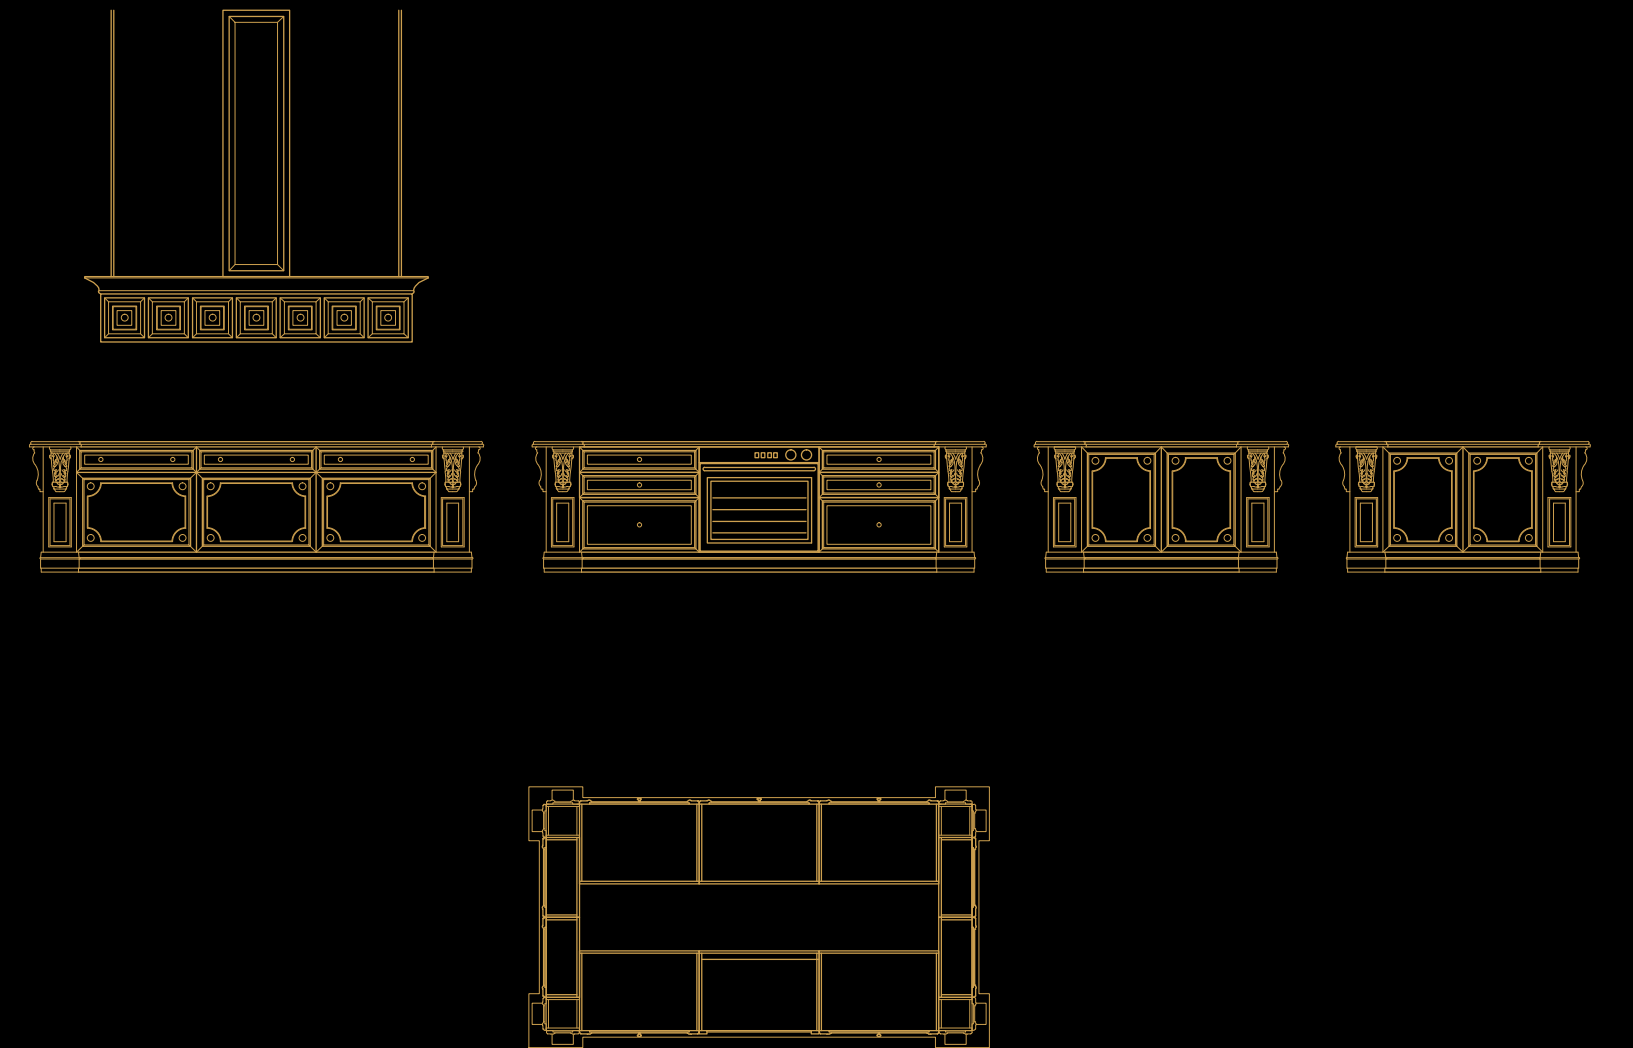

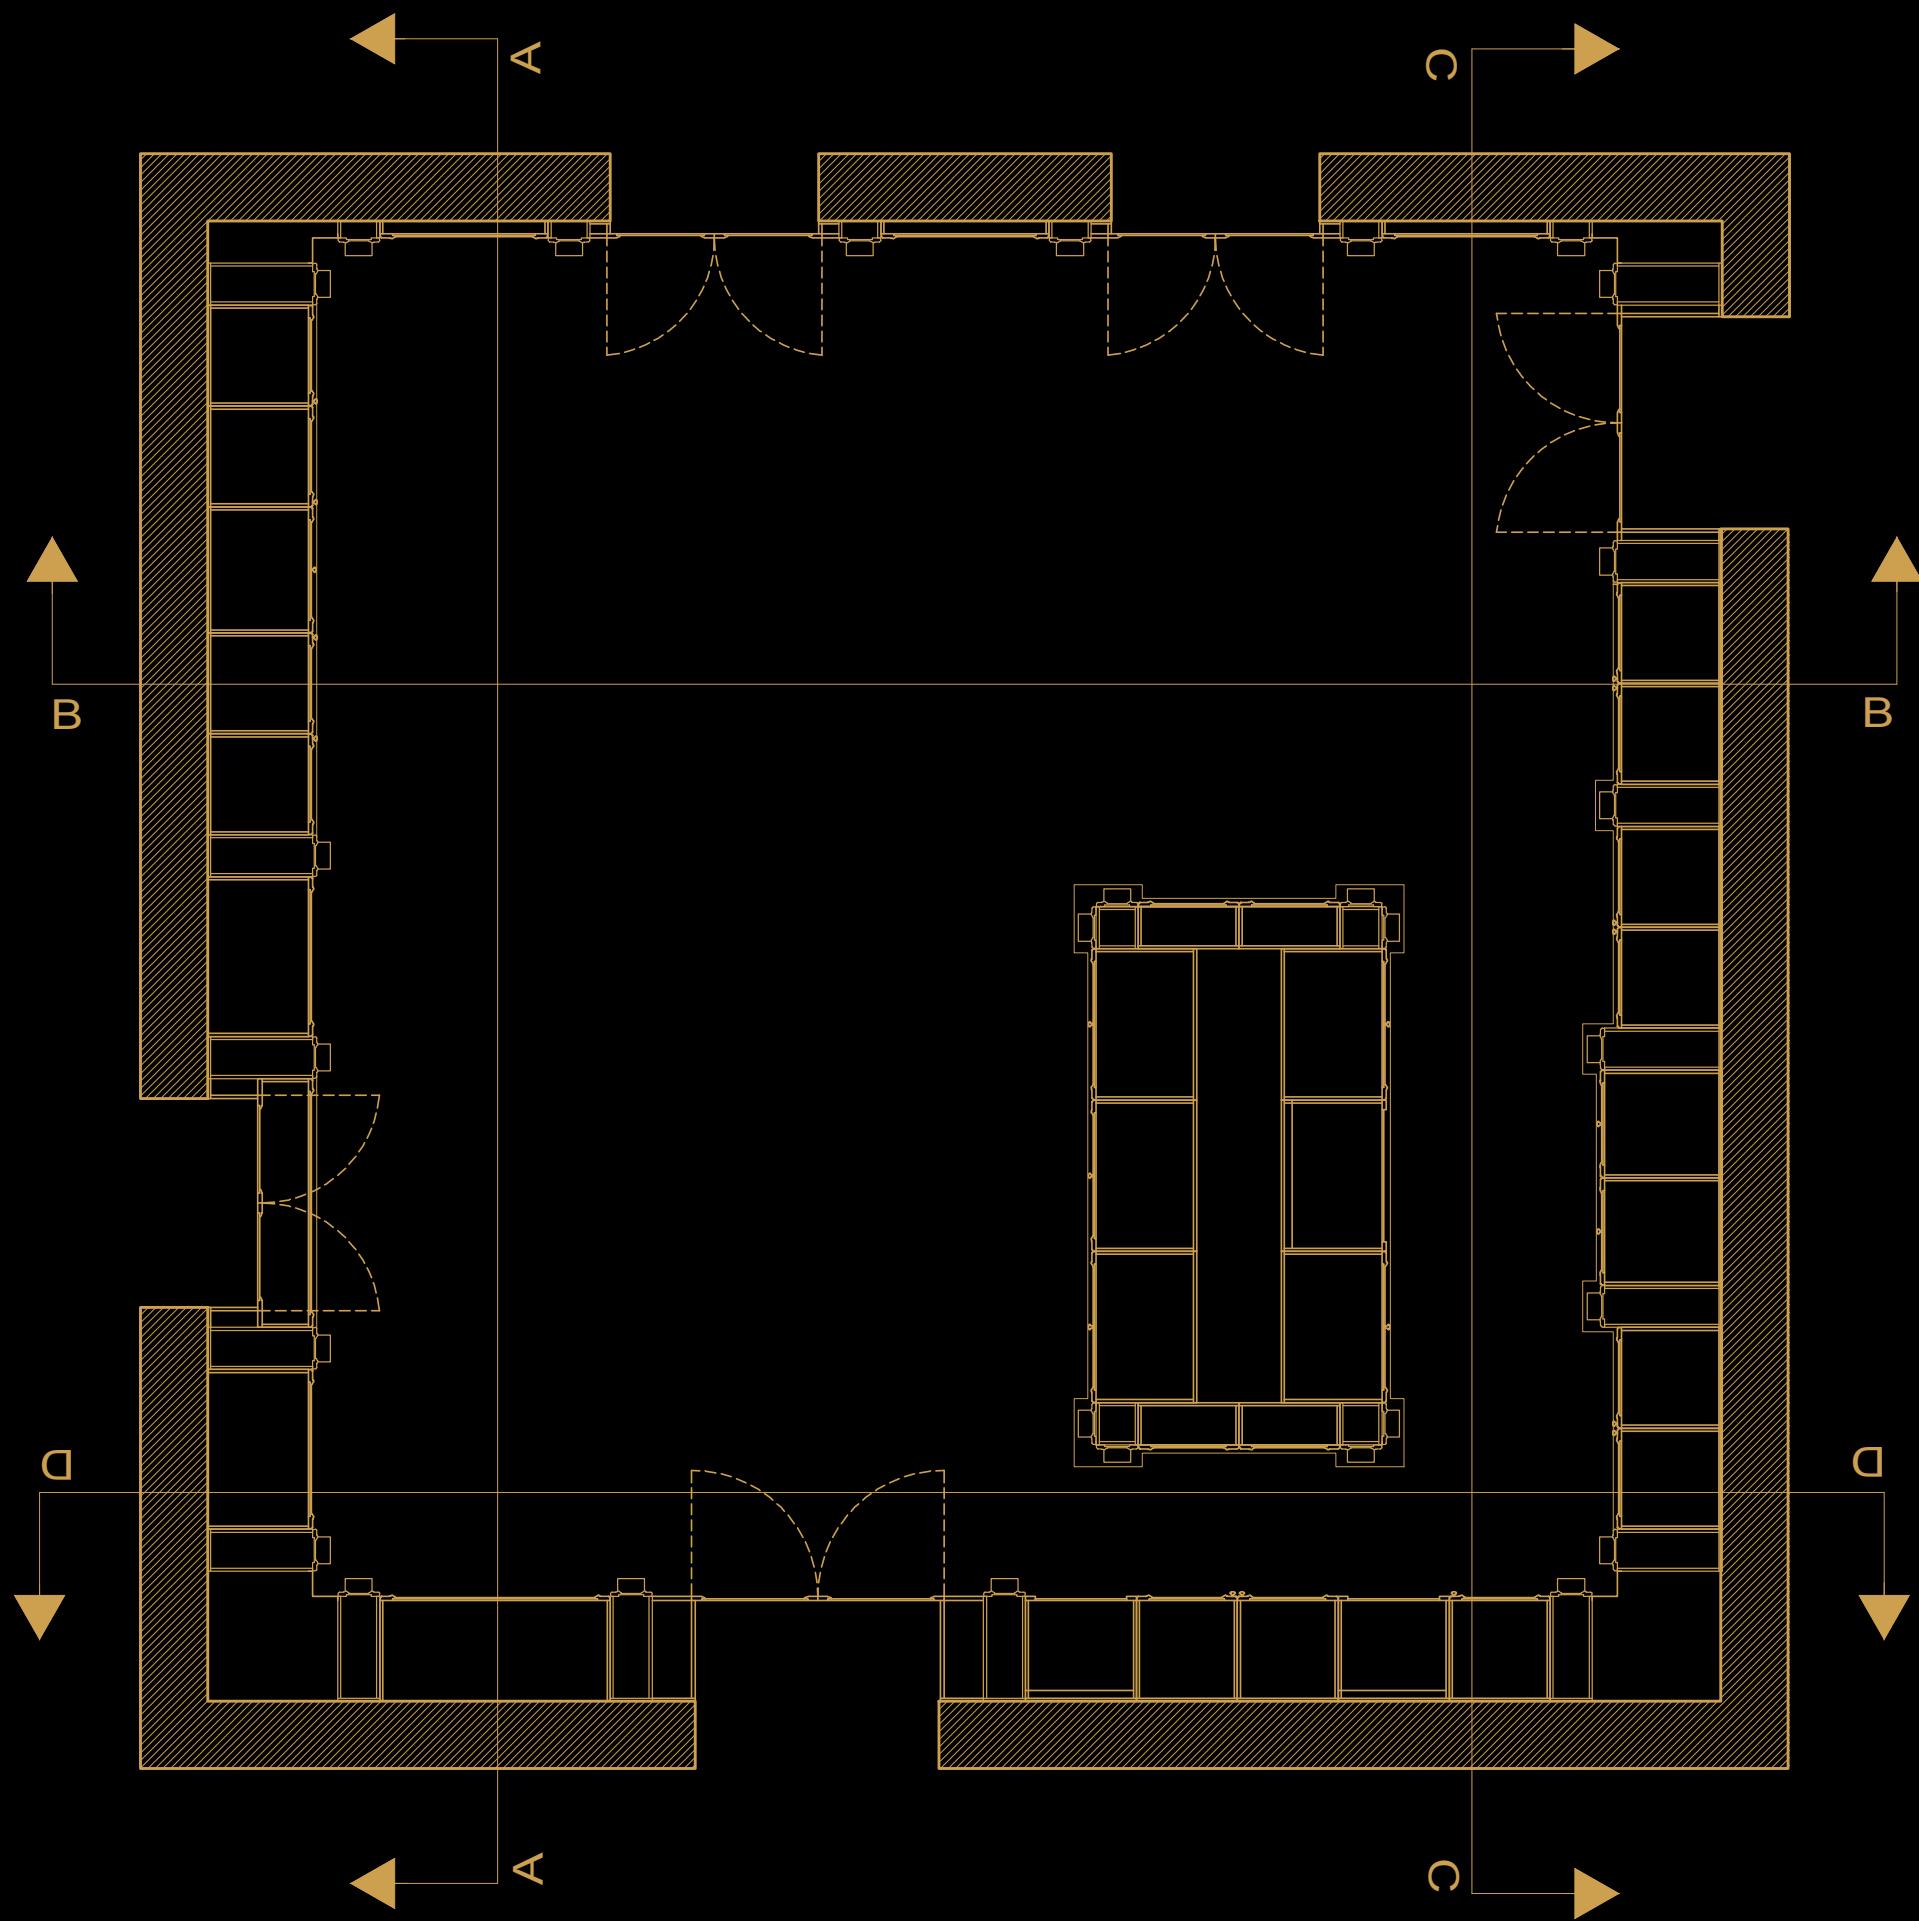

Romantica

A kitchen solution for the most nostalgic people. Light Classical lines and floral embroideries for recreating the traditional place of gathering like the one of old times: a warm family nest. The kitchen Romantica is presented here in two refined versions: the pastel lacquered solution and the ivory finish with gold leaf.
