About the company

We create the heart of the home

This is the motto of ITALIER. It's linked to our business idea of offering our customers original Italian furniture and furnishings, and creating turnkey interiors since 2015. Through ITALIER, we create the heart of the home together with you. Every project that passes under our hands is unique for our entire team and we put all our energy and creativity into it. The furniture in our range is the work of true Italian craftsmen. The synonyms of Italier are undoubtedly quality, personal approach and uniqueness. We really appreciate you, our customers, and we do everything to your 100% satisfaction. We personally guarantee the quality of every product you choose from us.

We look forward to future cooperation.

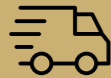

On behalf of the whole team of the managing director

4

We personally visit our clients with complete materials

Upholstery and colour

You are free to change the design of your furniture, the type of upholstery and the colours.

Designs

Most of our furniture is modular, we will draw up a free design according to your requirements

How cooperation works

1. Are you interested in our services? We will be glad if you decide to contact us. We will arrange a personal meeting.
2. During the personal meeting we will listen to your ideas and requirements. You will tell us how the interior should look, what it should be used for and what you expect from it.
3. Setting a budget is also an important part of the meeting. It will help us a lot if you estimate a preliminary budget.
4. We will carefully inspect and photograph the space in person. This too is a necessary part of the collaborative process that will make planning easier.
5. We will then provide you with a layout, design and quote. Alternatively, a 3D visualisation can be prepared, which will give you a much better idea of what the whole concept will look like. 3D visualisation is a paid service.
6. We will submit a proposal for your approval and arrange a schedule for implementation. We always do our best to make sure you have your dream space available in the shortest possible time.
7. Of course, we will provide you with follow-up assistance and be on hand to fine-tune the interior details.

5

Our furniture styles

Baroque furniture is the epitome of luxury, refinement and beauty. Imagine thick gold brocade upholstery, gilded decorative items, large mirrors and hand-painted ornaments. The Baroque-inspired space blends opulence with a touch of melancholy.

Do you consider yourself a discerning customer and only want luxury furniture in your interior? Then we recommend you to create a **glamour interior** with modern furniture in high gloss, which gives the impression of the highest luxury and elegance.

However, **modern** and **classic** lovers will also find their own.

Our product range

8

Make your interior a real home and decorate your living space with original Italian furniture and furnishings. Italier is the place to find a piece of yourself and furnish your home to the last detail. Our furniture, which is made with the greatest care and love, will become part of your family for decades to come and will not only fulfil its function, but will give your interior the true warmth of home, tranquillity and Italian spirit.

9

Do you need to furnish an apartment, a house or even a garden? Together with us, you can bring your ideas of modern living to a successful conclusion. We personally visit our clients with complete materials, we will draw up a free interior design and always give you a helping hand because we know what we are doing and we do it for you.

Turnkey interior

Professionally developed interior designs are becoming a common service in both the private and business sectors. Turnkey interior design will save you time, troubles and work with implementation. That's what our team of enthusiastic and experienced Czech and Italian designers is here for. Moving into a new place? Are you planning a renovation? Do you need help or advice? Then do not hesitate to contact us.

10

11

3D visualization

How will the chair next to the sofa look like? What about the beautiful light fixture above the dining table? Will the furniture layout suit you? Imagination and fantasy are something almost everyone is blessed with. But to see the layout and the actual look of an Italian interior from a drawing requires a certain talent. Take a peek into the future with us and take a chance to see the design of your interior before the actual implementation. In fact, we offer you modern 3D visualizations that will faithfully represent and illustrate the colour scheme of the furniture, the placement of lighting and the decors of the interior elements. We are able to produce a detailed design of your apartment or house, but we are also happy to focus on individual rooms. Designing a bedroom, dining room or living room is a small matter for us.

Bespoke

A home is an irreplaceable place where we are surrounded by people and things we care about. Italian furniture combines style, quality and uniqueness. Thanks to our wide range of modules and variability, we allow you to build your dream library, children's room, work room or even laundry room according to your ideas and requirements. Our modular furniture is available in many colour options, which can also be freely combined. Our custom-made production is a combination of design and functionality, in accordance with your wishes. To help you visualise the composition in the space, we will prepare a free 2D and 3D visualisation for you. Simply put, Italian furniture will add the right charm to your home and we will be happy to enchant you by it.

Curtains and drapes

Curtains and drapes are the oldest way of shading and beautifying windows. They have the task of breaking the penetration of the sun's rays into the interior and thus creating a comfortable light environment for our eyes. Another important role is thermal and acoustic insulation. Last but not least, it is a decorative element that can make the whole interior cosy. They are a very versatile decorative element that transcends various design styles:

- The ties, which can be mainly textile, cord and meta
- Tassels, which can be used to create solitaires of your home in the form of highly decorative pieces or even simpler ones in a modern style
- Trim, which can be used to decorate the sides of curtains or to finish them horizontally
- Waistbands, sewn into the front seams of curtains, or into the edges of cushions and accessories

Wallpapers

Wallpapers breathe life into walls and are a welcome addition to modern and stylish interior design. When you use the right wallpaper, you can influence the space of a room and the wall will give off a pleasant atmosphere. Enliven and beautify your home and choose wallpapers to suit your personal taste.

14

Decorative mouldings

Decorative mouldings are often used as window coverings for window decorations or as unobtrusive elements for additional power distribution of various electrical elements in the interior. They are also very often used for the installation of indirect lighting. They are particularly popular during interior renovations, where they can cover various unevenness (for example, an old plinth in the case of skirting boards), but also various cracks or other defects in walls and ceilings. These strips can then serve very well as a finishing touch to paint, wallpaper or other wall or ceiling decor. However, their versatility does not end there. Thanks to the endless possibilities of finishes, they are also often used as decorative mouldings on various surfaces of furniture, wood panelling, door or window portals, creating a sense of plasticity. They are also suitable for the placement of indirect lighting, thus emphasising their practical use and, last but not least, adding a distinctive elegance to your interior.

15

Lighting

There is no lighting like lighting. Even such a luminaire can be a design element in itself, which not only fulfils its practical function, but can also serve as an ornament for your interior. Here at Italier we have many different lights to choose from to create a pleasant atmosphere in your home, whether it be floor lamps, small table lamps, pendant chandeliers or wall lights. If you're not sure about lighting, we'll be happy to help you design lighting throughout your home or apartment. Contact us and we will prepare a customized lighting design, including installation.

16

Green walls and plants

We represent an Italian manufacturer that is one of the first companies in the world to create the Semi-Natural concept in trees and plants. The natural trunks are sourced from environmentally friendly areas and undergo anti-parasite treatment, allowing our trees to maintain their natural and beautiful appearance for years. The best processed artificial leaves on the market contribute to making our semi-natural plants completely unique. These plants need no watering, trimming, or maintenance. Just place them appropriately and then enjoy their beauty.

17

Tailor-made

Textiles give the interior a cosy and lived-in look. To perfect your interior, we can tailor almost anything. We can sew cushions, tablecloths, bedspreads and decorations in any design. We have hundreds of different colour options to meet the needs of the most demanding customers. The used materials are of high quality and their appearance is a combination of luxury and elegance. Ask us for the fabric of your choice and we will prepare a quotation for you. Gladly we will lend you samples of the materials on request.

Accessories

Even the smallest details separate luxurious and designer interiors from mediocre ones. If you have found a taste for Italian design, you will be pleased with our section of Italian decorations. Here you can discover truly original pieces that will brighten up your home and give it the right touch of unique Italian style. If you can't choose from our plethora of accessories on your own, we will gladly advise you and help you fine-tune your interior.

Baroque furniture by Modenese Gastone Interiors

Baroque furniture from Italian manufacturer Modenese Gastone is the highest level that can be achieved in this sector.

20 Precision craftsmanship, hand-carved details, quality materials and luxurious design are synonymous with this world-renowned manufacturer whose designer luxury pieces adorn interiors around the world.

But this furniture is not just for castles. On our website, you can also see successful projects, for example, in family houses, where we have managed to create an atmosphere of luxury and splendour in ordinary homes.

Modenese Gastone is a specialist in the production of baroque furniture of the highest quality and has its own know-how that has been handed down from generation to generation for decades. The company's product portfolio offers a wide range from a selection of floors, solid wood doors, windows, walls and ceiling decorations including bespoke ornamental details to luxury furniture.

Our company is the exclusive distributor of this manufacturer for the Czech republic and we offer exclusive service and advice just for you. Do not hesitate to contact us and arrange a personal meeting. We will listen to your wishes, carefully measure your space, draw up designs and layouts and together we can create your dream home in the spirit of Italian design and quality.

Our realization

We have already completed a number of projects. Nothing is more pleasing to the eye than properly chosen Italian furniture placed in your homes, apartments, businesses and other commercial spaces. Take a look at the latest projects that we have created together with our clients to meet their requirements. Choose from the category of your taste or be surprised and inspired by all the different styles of our Italian furniture. We realize each project to listen to the client's wishes and to take advantage of the possibilities of the space. You can see the realisations on our website:

www.italier.cz/realizace

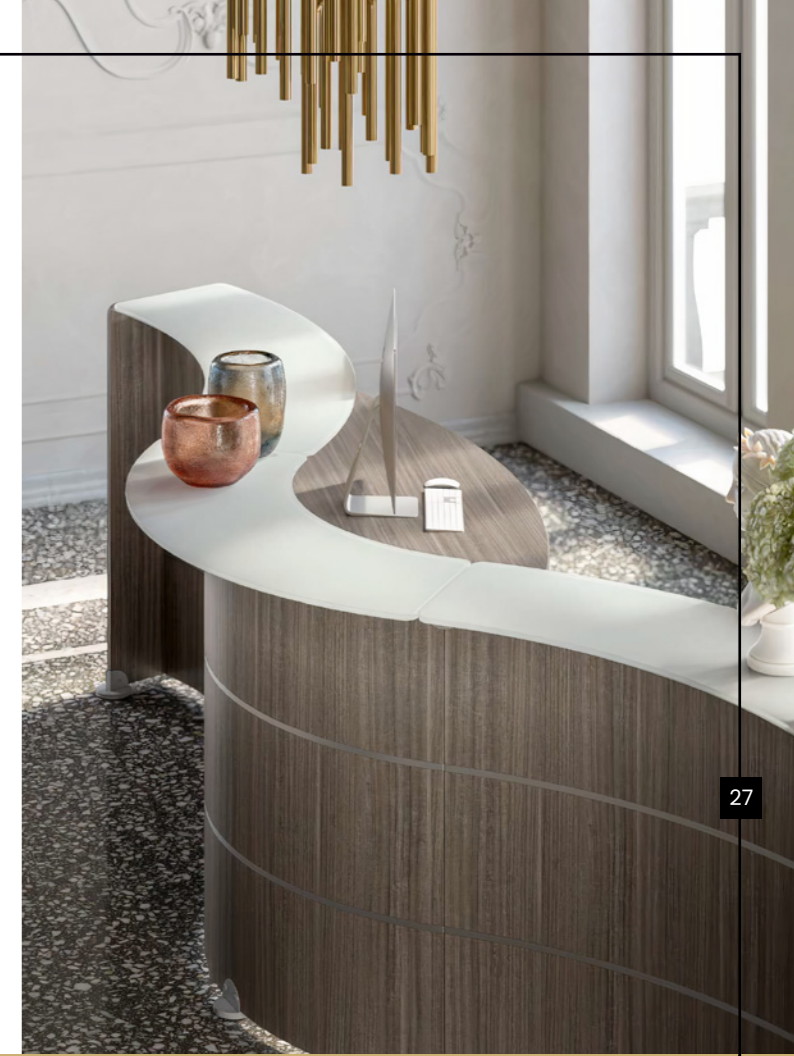

Commercial projects

Commercial interiors with timeless amenities and services from A to Z

The interior of commercial projects is as important as the interior of our homes. How the interior looks will also reflect the atmosphere and feel of a particular place. Our job is to ensure that visitors to commercial spaces feel comfortable and relaxed. At the same time, we always meet the needs of the space as well as the requirements and ideas of the client. We can produce furniture to suit a variety of interior styles. We will listen to your wishes and ideas and do our best to accommodate them, whatever they may be. We can design solutions for a variety of spaces furnished in different styles.

B2B collaboration for architects and designers

Give yourself the opportunity for designing and creativity. We take care of the realization, from furniture delivery to installation! Being an architect and designer can be a pleasure or a huge pain, in a figurative sense. Most designers don't know where to turn with a proposal. They have no way of bringing their great design to life. And that's why we're here.

„Your mission is to create. Our mission is to make it happen.“

We offer collaboration from design to interior or exterior implementation. We provide complete delivery of residential, commercial and castle furniture and accessories throughout the Czech and Slovak Republics, including transport and installation.

- Complete support of our assistance team
- Easy and quick access to updated data
- Wide portfolio of modern, stylish and baroque furniture
- We travel to our partners and are happy to meet you in person
- Discounts for you or your clients
- Provision of printed catalogues and samples of materials
- Professional assembly of furniture by our experienced fitters, including removal and disposal of old furniture
- We will prepare your quotation within 48 hours
- We resolve complaints quickly and to the customer's satisfaction
- We will agree on payment terms together
- We have an exposition in České Budějovice
- We can arrange the production of atypical furniture
- If necessary, we will store the goods until the realization of the order

3D MODELS FOR PRODUCTS

We know what the profession of an architect or designer entails, so we want to make your job a little easier. We are happy to provide you with 3D models (3DS and DWG) for selected Italier brands.

RENTING SAMPLES

Samples of materials and colours are essential for the correct selection of furniture. Gladly we will lend you samples for your clients.

PERSONAL MEETING

It's our pleasure to visit you and bring you catalogues for your chosen brands. We will tell you everything you need to know about the complete range and introduce you to various new products and bestsellers. We will also show you the range of colours and materials. After all, cooperation based on personal relationships is the best.

TRANSPORT AND INSTALLATION

Our experienced team of fitters will quickly and carefully assemble any piece of furniture from our range. Of course, the assembly process also includes the environmentally friendly disposal of packaging materials. Optionally, we also offer the removal of old furniture.

Our partners

We cooperate with major manufacturers, architects, developers and real estate agencies.
