| Ignifugo | Flame retardant |

Note sui rivestimenti — Per ragioni tecniche non è possibile garantire lo stesso tono di colore tra un lotto di produzione ed un altro. Leggere differenze, con una tolleranza del 5% devono intendersi come normali e non possono dar adito a reclami o alla risoluzione del contratto. Sitland spa si riserva il diritto di apportare modifiche alle finiture contenute nella presente cartella senza preavviso alcuno. Ulteriori informazioni sulle caratteristiche tecniche di ogni singolo rivestimento sono disponibili nel sito www.sitland.com

Pulizia e manutenzione — Per la manutenzione del tessuto spalmato consigliamo di passare con frequenza almeno mensile la superficie, utilizzando un aspirapolvere. In caso di unto, utilizzare solamente un panno leggermente umido e sapone neutro, non strofinare e lasciare asciugare naturalmente. Per mantenere la qualità della pelle evitare l'esposizione diretta alla luce del sole e alle fonti di calore, spolverare regolarmente la pelle con un panno morbido e asciutto. In caso di macchie, le stesse si possono eliminare usando un panno morbido inumidito con acqua e sapone neutro. Asciugare dopo il trattamento, non strofinare ma tamponare delicatamente. Non utilizzare assolutamente detersivi aggressivi o spray che possono danneggiare nel tempo l'aspetto e la tenuta della pelle.

Note on upholstery — For technical reasons, batch to batch variations in shade may occur. Slight differences, within a tolerance of 5%, are to be considered as normal and acceptable and they cannot give rise to claims or to a breach of contract. Sitland spa reserves the right to make modifications to the finishes contained in the present folder without any prior communication. Further information on the technical characteristics of each individual upholstery is available on the website www.sitland.com

Cleaning and maintenance — For the coated fabric maintenance, we suggest you to regularly vacuum clean. Stains can be cleaned with a soft damp cloth and mild soap; do not rub and allow to dry naturally. To maintain the beauty of the leather: avoid placing leather near direct sun or any heat sources, dust regularly with a soft and dry cloth. Spots can be washed off using a lightly damp cloth with mild soap; dry after the treatment, do not rub. Never use strong detergents or sprays that can damage the appearance and tightness of the leather over time.
