Giravolta

The wireless outdoor lighting

DESIGN

Alberto Basaglia - Natalia Rota Nodari, 2017

en — Inspired by lanterns of times past, it is a wireless lighting distinguished by a contemporary design and suitable for outdoor environments. The name reflects its essence: the swivelling diffuser and the rechargeable feature recalls the great inventor Alessandro Volta and his main discovery, the battery.

it — Ispirata alle lanterne di un tempo, Giravolta è una lampada wireless ricaricabile dal design contemporaneo, adatta per l'outdoor. Nel nome tutta la sua essenza: da un lato il suo diffusore orientabile, dall'altro il suo essere ricaricabile da cui il riferimento ad Alessandro Volta e alla sua principale invenzione, la pila.

Colette

Iconic light

DESIGN
Alberto Basaglia - Natalia Rota Nodari, 2013

EN — Colette is a table or bedside lamp in polycarbonate that stands out for its sculptural shapes and the colour. A translucent cylinder diffuses the light only in correspondence of the half-sphere. Its transparency gives lightness to the whole lamp.

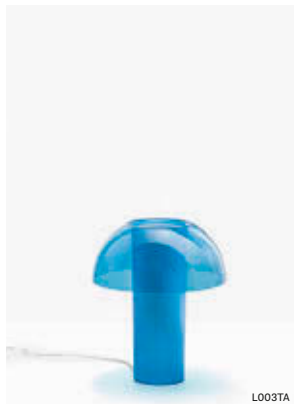

IT — Colette è una lampada da tavolo o da comodino in policarbonato che si esprime attraverso la plasticità delle forme e il colore. Un cilindro traslucido tenta di imprigionare la luce che si libera pienamente solo in corrispondenza della semisfera che con la sua trasparenza dona leggerezza all'intera lampada.

TO.BE

Essential shape

DESIGN
Alberto Basaglia - Natalia Rota Nodari, 2019

en — TO.BE is a suspension light, ironically named to reflect its shape - a tube suspended in the air. An essential lamp, with a narrow cylinder in polycarbonate, white powder coated inside, available in a wide palette of colors outside, with a hole in the upper part of the diffuser that allows light to shine out and illuminate the ceiling.

IT — TO.BE è una lampada a sospensione che nel nome richiama con ironia la sua forma: un tubo, sospeso nel nulla. Una lampada essenziale, composta da uno stretto cilindro in policarbonato verniciato bianco all'interno e in un'ampia palette di colori all'esterno, con un foro nella parte superiore del diffusore che permette la fuoriuscita della luce illuminando il soffitto.

DESIGN

Alberto Basaglia - Natalia Rota Nodari, 2011

EN — Distinguished by soft and sinuous shapes, the L002 collection is the result of combining two moulded polycarbonate shells. The inner shell diffuses the light and hides the bulb, while the outer diffuser comes in different colours.

IT — Caratterizzata da forme morbide e sinuose, la collezione L002 nasce dall'unione di due gusci in policarbonato stampato. Il guscio interno diffonde la luce nascondendo la lampadina; quello esterno può essere in diversi colori.
