

Green Visions

ITALIER

The
SemiNatural Shape
of your
Dreams

Made in Italy since 1988

” Such Stuff as Dreams are Made On”

There is indeed something magical in the clarity of Nature. Something mysterious and hidden in its openness and clearness; something multifarious and diverse.

It is a blinding spell that which Nature casts upon our Senses. Light always hit the leaves at a perfect angle, aural reverberations of lights and sounds **entangle our perception** and inspire our feelings with something great and hermetic.

For more than 30 years **ila** has studied the multi-faceted variety of Nature joining the deepest knowledge and insight of our Natural world with the Art of Design, conjugating *Noumenon* and *Phenomenon*.

The **Aesthetical Philosophy of Nature** has come full circle with **ila's** composition.

In modern times, when we feel such a severe abstraction and separation from Nature, **ila's Art of Natural Design** serve to remind us that we are all unite and universal. Our **Research and Design Team** constantly renovate our solutions in Indoor Landscaping trying more and more to reconcile ourselves with Nature.

It is our proud task to help you carry out your creations and fulfill your dreams and design projects.

We hope that in these pages and you will be able to see the care and passion we put in all our **hand-crafted green objects of décor**.

ila's Concept

Since the beginning of its history, **ila** has adopted the Seminatural philosophy in the production of trees and plants. The combination of 100% natural trunks, the finest man-made leaves and the authentic Italian craftsmanship is what makes our timeless creations so special.

Each **ila** tree is a unique piece, designed to enhance the beauty of Nature and of the surrounding environment.

ila's Green Essence

Colours, shades, silhouettes, textures...the constant research leads us always to use the most innovative materials that prevent dust from settling on the surface, giving a natural shine that remains unaltered over time.

ila's Natural Element

Our exclusive natural elements are sourced only from environmentally-friendly areas (especially from the clearing zones about to be reforested) and are subject to anti-age and anti-parasitic treatments which allow our trees to maintain their natural, astonishing look for years.
