Schienali reclinabili in molteplici posizioni / Reclining backrests with multiple positions

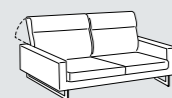

A seconda della collocazione del divano si potranno gestire le diverse inclinazioni dello schienale. Tenendo il divano appoggiato alla parete si potranno sfruttare le posizioni dello schienale per i primi 20° mantenendo così un ingombro totale di cm 98. Inclinando ulteriormente lo schienale oltre i 20°, aumenta di conseguenza la profondità del divano fino ad un massimo di cm 130 con un' inclinazione di 60°.

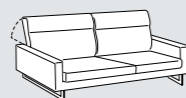

Depending on the location of the sofa, different backrest positions are possible. If the sofa is positioned against a wall, backrest positions corresponding to the first 20° can be set, thus maintaining a total footprint of 98 cm. Inclining the backrest by more than 20° consequently increases the depth of the sofa, up to a maximum of 130 cm with a 60° inclination angle.
